EU Demand: Austria and **Norway Must** Agree Now

With Deadline Nearing, Finns and Swedes Make Membership Progress

By Tom Buerkle

BRUSSELS—The European Union on Sunday warned Austria and Norway that their bids for membership would be delayed significantly unless they softened demands for special treat-

ment on lishing rights and Alpine traffic by midnight Monday.

The deadlock, which contrasted with clear progress by Finland and Sweden in the weekend talks, threatened to rob the EU of much of the political impetus it hoped to achieve when it began negotiations to embrace the four coun-

tries nearly a year ago.
European Affairs Minister Theodore Pangalos of Greece, which holds the rotating EU presidency, indicated that Finland and Sweden were likely to conclude agreements by the deadline but that Austria and Norway were having difficulty. Although talks could continue in coming months, he said, Feb. 28 is the "political limit" for cutting a deal that could be ratified in

time for entry on Jan. 1, the ultimate aim.
Foreign Minister Alois Mock of Austria said
it was "a distinct possibility" that his country
would not finish talks by Monday.
Teclinically, officials acknowledged, negotiations could continue as late as March 10 and

still meet the Jan. I entry date, but EU officials clearly wanted to keep up the pressure on the

candidates to make concessions.

For the EU, the addition of the four countries is critical to its ambition of building a wider Europe. If negotiators cannot find a way to accommodate four wealthy countries with deep democratic traditions and well-developed economic ties to the EU, it would deal a severe hlow to the membership apprations of Poland, Hungary and other East Emopean countries. But Mediterranean countries, led by France and Spain, worried that the four candidates would shift the EU's power balance to the north and impede efforts to deepen political coopera-tion, have hardened their positions in recent

The impression that we have is that we are wasting time." France's minister for European he ...k. 31c Saturday. We are worried to see gestures we are making are not being reciprocated. It is time for the candida to manifest itself."

Officials said EU negotiators had offered 500 million Bass (\$565 million) of aid a year to help the four countries align their farm prices with EU levels. Because of the difficulty of cultivating marginal Nordic and Alpine land, the four countries guarantee their farmers prices up to two times EU levels. The imposition of EU prices would cut farm income by some 2.5 billion Ecus a year.

That concession would reduce the net contribution the four countries would make to the EU's annual 70 billion Ecu budget to around

1.1 billion Ecus.
The EU also offered to maintain a pact limiting truck traffic in Austria's Tyrolian Alps for as much as seven years, compared with a previous offer of three years. But Mr. Mock said it was "inconceivable" that Austria could accept any shortening of the agreement, which is scheduled to run through 2004.

EU negotiators also made little progress in getting Norway to open up its fishing waters to boats from Ireland, Portugal and Spain, which has the largest EU fleer. Fisheries Minister Jan Henry Olsen said Oslo could not give up "responsible management" of its fish resources by letting in the three countries, which do not enjoy the access that other EU countries have.

Bomb Blast Kills 10 In Lebanese Church

Two wired mortar bombs planted near the altar blew up during Sunday Mass at a Maronite church in Lebanon, killing 10 worshipers and wounding 60, the police

The blast ripped through Sayyidet el Nejat (Our Lady of Salvation) church at Jounie, 12 kilometers (8 miles) north of Beirut, shortly after 9 A.M. Witnesses said dozens of people were taking communion when the 82mm montar bombs exploded. It was the deadliest bomb attack since a car bomb in mainly Muslim West Beirut killed 17 people in December 1991.

Prime Minister Rafik Harm went to the church after the attack and said it was carried out by "foreign hands" to "cover on the massacre of Arabs by an Israeli on Friday. A similar accusation was made by Foreign Minister Faris Boucz. (Page 7.)

Rabin Curbs Wilitant Jews

Arab Prisoners to Be Freed as Goodwill Gesture

By Clyde Haberman New York Times Service

HEBRON, Israeli-Occupied West Bank Seeking to defuse Aran anger and allay interna-tional concerns over the Hebron massacre, the Israeli sovernment on Sunday ordered some of the toughest measures ever taken against radi-cal Jewish settlers in the occupied territories.

The actions, which include the creation of a special commission to investigate the attack, affect a relatively small number of settlers for now, and they were swiftly rejected as "empty, hollow" gestures by Yasser Arafat, chairman of the Palestine Liberation Organization.

Nonetheless, they represent a change in spirit for Israel's leaders in that the sort of sanctions imposed collectively on Palestinians for years have now been placed on Jews considered be-youd the political and moral pale. Settlers deemed to be dangerous are to be detained disarmed and restricted in their movements through the territories.

Army commanders issued orders for the immediate "administrative detention" — arrest without formal charges — of five settlers pre-sumed to be members or sympathizers of the Kach movement and its spinoss. Kahane Chai, both grounded in the anti-Arab extremism espoused by the late Rabbi Meir Kahane. It was a Kahane disciple, Dr. Baruch Goldstein from the neighboring Qiryat Arba settlement, who killed dozens of Palestinians in Hebron on Friday by opening fire with an automatic rifle as they knelt in prayer at a Hebron shrine held holy by both Muslims and Jews.

In addition, as a conciliatory move, the cabi-

net of Prime Minister Yitzhak Rabin said that 2s many as 1.000 Palestinian prisoners would be freed within a week.

Dr. Goldstein, who finally was overcome and beaten to death by the worshippers, was buried Sunday in Kirvat Arba after a funeral service in which some mourners praised him as a hero and a righteous man. His grave is said to be tempo-

rary, and the plans are to move him to the Jewish cemetery in Hebron when tensions ease. One million Arabs are not worth a Jewish

fingeranil," Rabbi Yaacov Perrin said in a eulogy. At the service in Jerusalem, attended by 300 people, one man shouted. "We are all Goldstein." an opinion echoed across Qiryat Arba by neighbors who said variously that they approved of his attack on the Arabs or at the least could not judge him.

This condoning of mass murder has shocked and repulsed many Israelis, including Prime Minister Rabin. One burial society in Jerusatem was reported to have refused to ritually prepare Dr. Goldstein's body for burial because he was a mass murderer.

Some officials said that the remarks at the funeral, while decidedly minority opinions in Israel and hardly representative of all settlers, contributed to the government's resolve almost as much as the desire to control the diplomatic damage and keep the Israeli-PLO peace talks

Administrative detention has been a standard Israeli tactic against suspected Arab militants, and was even used against Rabbi Kahane himself in the 1970's. But to have it applied in this way to several Israelis at once is a change. And Justice Minister David Libai said more settlers could be added to the list.

One of the five was already arrested and ordered held for three months, but the others vere at large.

The government also said that radical settlers - 20, according to some estimates - would have their guns taken away and others - perhaps 15, Israel Radio said - would be barred from entering the West Bank, especially Hebron. While the government did not characterize this measure as a form of exile, it was similar to bans on entry into the territories long imposed on Palestinians.

Mr. Libai suggested that the numbers of settlers to be disarmed could also grow. Defin-ing those considered dangerous, he said that they were "people who bave opinions that characterize the supporters of Rabbi Kahane - 1 would almost say that these kinds of opinions are immoral.

At the weekly cabinet meeting, ministers also instructed the attorney general to study ways of outlawing Kach and Kahane Chai, both of which have been been kept from running candidates in the last two elections because of positions judged by the authorities to be racist.

"if we don't declare them illegal, we will have no legal basis to prevent the immigration of their brethren from Brooklyn," said Absorption Minister Yair Tsaban, whose agency is responsible for tending to new Jewish arrivals.

Out of Jail, Yeltsin Foes Weigh Future

By Margaret Shapiro

Washington Past Service

MOSCOW — Ruslan I. Khashulatov, a key leader of the October uprising against President Boris N. Yeltsin, said Sunday that he was quitting politics altogether and was "disgusted" with all those in power.

Mr. Khasbulatov and other leaders of the Oct. 3-4 hard-line rebellion were released from Lefortovo Prison here Saturday. The speaker of the former Russian parliament, one of Mr. Yeltsin's bitterest foes, told the Interfax news agency that he would concen-trate on finishing a book about "the entire aboutdity of economic reforms in Russia."

Mr. Khashulatov said that there was no one in Russian politics today who would bonor their commitments."

child," be said.

Mr. Khashulatov and other leaders of the uprising were freed under the terms of an amnesty approved last week by the new Russian parliament. All bad been charged with inerting mass disorder, a charge that could have resulted in jail terms of 15 years. More than 140 people were killed in the uprising, which was quelled when Mr. Yelisin called in tanks to bombard the Russian White House, the parliament building where Mr. Khasbulatov and the others had barricaded themselves.

Yelisin aides have sharphy attacked the amnesty and warned that the release of the men, including the former vice president, Alexander V. Rutskoi, could plunge the

"Compared with them Machiavelli is a country back into political strife. Mr. Yeltsin had tried unsuccessfully to block the amnesty. Some of his supporters are now pressing m to challenge the amnesty provision, which also covered the men who led the August 1991 coup against Mikhail S. Gorba-chev, before Russia's Constitutional Court.

A political associate of Mr. Rutskoi's said the former vice president, a much-decorated Afghan veteran who remains popular, would very likely run in the next presidential elec-tions, slated for 1996, when Mr. Yeltsin's

The associate, Andrei Fyodorov, said that Mr. Rutskoi, 47, had not been beaten down by his arrest and imprisonment but was also

Moving Closer to Global Village Ideal

By William Drozdiak

LILLEHAMMER Norway — As the world hurtles toward the 21st century, the Olympic movement finally appears close to fulfilling its potential as a global village that reflects the fraternity of athletes amid the diversity of nations.

Gone are the days of Cold War propagan-da and politically inspired boycotts. While national flags and anthems were prominent

as ever on the medals podium, the 17th Winter Games here showed bow international sport is moving beyond its old role as a theater to prove who can produce a superior society.

Even the judges, once obvious pawns in the East-West conflict, now seem above political reproach - except in figure skating, where Cold War loyalties seemed to surface during the women's competition. Oksana Baiul of Ukraine got the nod from former East bloc

judges, including the German judge, over Nancy Kerrigan of the United States.

The Lillehammer Games will be remembered for more than the hattle between Tonya Harring and Nancy Kerrigan. Indeed. the more enduring images may be those that transcended personal or nationalistic rivalry. Russian athletes whooped with joy when they learned about the U.S. speed skater Dan

A Fateful Double Miscue Spurred Europe Bond Rout

By Carl Gewirtz nal Herald Tribuna

PARIS -- As the dust clears from the plunge in European bond prices, analysts said the market was likely to take weeks to recover from the withdrawal of international speculators, who were forced to sell their holdings by two miscalculations:

What ought to have been "a graceful transfer of ownership" from the speculators to local investors, according to Jan Loeys of J. P. Mor-gan & Co. in London, turned into a rout because the traditional buyers were not prepared to take on the bonds.

The speculators' first miscalculation was based on the perception that short-term interest rates would fall sharply in Europe. They had been expecting a rapid rise in bond prices as short-term European interest rates were pulled down by recession. They then made a second mistake, trying to

multiply their expected profits by buying dol-lars, figuring that the fall in European interest rates at a time when American rates were expected to rise would push the dollar up against the currencies in which their bonds were de-

But it did not work like that. The Bundesbank has been agonizingly slow to reduce money-market interest rates, at 6 percent since December, and this disappoint ment has translated into a slow but steady erosion of European bond prices since the start

This turned into a rout last week as positions

were dumped because the speculators found themselves in an untenable position, in part because the dollar fell as a result of the trade turmoil between Japan and the United States. Not only were European bond prices falling, but the currency bedge that most likely was established at the end of last month had moved massively against the speculators. Given the

NEWS ANALYSIS

high leverage employed by the speculators, who often borrow money to establish their market positions, this pincer movement drove losses to vels that could not be sustained.

The unraveling of both strategies left the speculators doubly vulnerable and sent them in droves to the exit doors. This created a liquidity problem in the bond markets last week, and finding new investors will take time. Local investors in Germany and France have recently had little incentive to buy long-term securities since short-term rates have been higher than the vields on bonds.

A similar rotation problem is affecting the U.S. market, although it is also suffering its own woes, notably about the timing and size of interest-rate increases by the Federal Reserve Board. Commercial banks, whose prime role is lending money rather than holding securines.

UN Inspectors on the Way To North Korean Plants

Compiled by Our Staff From Dispatches VIENNA - United Nations nuclear inspectors were heading for North Korea on Sunday to examine seven sites for any evidence that radioactive fuel may have been diverted to a

secret arms program. North Korea gave its assent to the inspec-tions Friday only hours before the start of a process that could have resulted in a trade blockade against it.

In return for North Korea's limited action, the United States has agreed to suspend annual military exercises with the South Korean armed

The six-member inspection team, plus a technician, left Vienna on Sunday for Beijing and was expected to arrive in Pyongyang on Tues-

The team is made up of three Finns and three experts from Arab countries, all staff members of the 120-state International Atomic Energy Agency, sources at the agency said.

The sources said the makeup of the team had been agreed with North Korea, which was "rather particular about the countries they wanted and did not want taking part."

Their task is to gather information, change

film in automatic surveillance cameras and

change seals on permanent inspection equip-ment at the seven declared nuclear sites. This will go only part of the way toward establishing whether North Korea is telling the truth in its insistence that it has no covert

ar weapons project. Hans Blix, the director-general of the atomic energy agency, has made it clear that there are tencies in data offered by North Korea

to balance its nuclear fuel accounts. Ultimate verification can be achieved only if the agency is given access to more information and allowed to visit two further sites that the West suspects are involved in a nuclear bomb

project, Mr. Blix has said. The inspection team, which had been waiting to leave for several days, finally received entry visas for North Korea on Saturday after Pyongyang and Washington struck an accord.

North Korea stalled the inspections for See KOREA, Page 7

Q&A: U.S. Sets Aggressive Strategy on Exports to Asia

The Clinton administration is developing an aggressive United States export policy to promote jobs and economic recovery at home. Before arriving in China over the weekend after visits in Singapore and Indonesia, Jeffrey E. Garten, the U.S. undersecretary of commerce for international trade, discussed growth prospects and potential contradictions of the policy in Asia with Michael Richardson of the International Herald Tribune.

Q. The United States has adopted an aggressive market opening strategy and export policy. How will they affect politi-cal relations with East Asian countries?

A. When the Clinton administration came into office, it placed economics on a much higher plane in terms of overall foreign policy than previous administrations. It was inevitable that this would cause a certain amount of tension in our foreign policy because most other countries were not used to a really aggressive U.S. economic policy, and certainly not

used to the U.S. placing economics on the same plane as traditional security issues. of U.S. business? It is possible over the next several years that we will see increasing tensions as we realign our foreign policy. But having said that, our market is staying open and I think that these tensions will be man-

O. What will the new U.S. export strategy mean for Asia?

A. The government will be much more active in helping U.S. firms in the region. There will be some concessional export financing which we haven't had before, and there will be more links between the export efforts of federal and state and

Above all, there will be a much more aggressive advocacy on behalf of American firms when it comes to projects where foreign governments have some say. We have been leaving the field to Europe and Japan, where governments and

industry cooperate much more closely than has been the case for the U.S. We will change that balance.

O. How can the U.S. government use

A. We have to do what other governments are doing, so long as it's legal. We have to be able to provide financing on competitive terms. We have to be talking to foreign governments about who they award contracts to. We have to be making the case on behalf of our firms.

We have to be organized. We have lots of programs. But in the past many of them, such as our insurance for overseas projects, export-import financing and feasibility study financing, acted at crosspurposes. So we have got to steamline our operation and make sure it is effective.

Q. Which are the big emerging markets and business sectors in Asia that are of particular interest to the United States? A. The major markets for us are China, Indonesia, India and South Korea. That does not mean we are not interested in other countries, particularly members of ASEAN, the Association of South East

Q. Have you identified many emerging

A. We are focusing very heavily on transportation, including acrospace, information services, telecommunications, health care services and equipment, envi-ronmental technology and financial scr-

Our estimates are that over the next 10 years or so, there will be almost a trillion dollars worth of infrastructure projects such as these in Asia, mainly in China, Taiwan, Hong Kong, Indonesia and In-

Q. China and Indonesia are on your list of big emerging markets. Yet they are two countries where the Clinton adminis-tration is pressing hardest on human rights. Isn't that a disruptive element in the export drive?

A. Well, I don't deny that this makes trading more complicated. The fact is, however, that the U.S. can never be a purely mercantilistic country. We will never be like Japan or France, for example, able to look at economics purely in

We have a set of values which will

business sectors and projects in Asia? always, in one way or another, characterize our dealings with other countries. It may be that this imposes some obstacles on our business. But I think they are obstacles that can be overcome if the businesses are really competitive.

> Q. Is the plan to resuscitate the U.S.-China Joint Commission on Commerce and Trade dependent on progress by Beijing on the human rights froat? A. The commission is domant. We

would like to revitalize it as a sign that we are very interested in a long-term com-mercial relationship with China.

I will set up a meeting with the Chinese for April in Washington in which we

hope to discuss a very broad range of commercial issues. This will occur before the decision on Most Favored Nation trading status. Therefore, it is not dependent on what happens in June.

However, it certainly would make life much easier if there is a renewal of MFN. In which case the further meetings of the commission could very well become the centerpiece of commercial relations between the U.S. and China.

Stop Rights Activities or Face Rearrest, Beijing Tells Dissident

By Patrick E. Tyler

BEIJING - Security officials have warned China's most prominent dissident, Wei Jingsheng, that he will be arrested again if he continues to campaign for human rights and

Mr. Wei has told associates that he has received three pointed warnings since Feb. 10. In each case, Public Security Bureao officials have told him to stop meeting with foreign journalists to discuss democracy and rights issues and to abandon plans to publish a book about his 14½ years in

At the same time, the authorities have rejected a new request by another dissident, Yo Haocheng, to travel abroad and warned him that he could be punished if he continues to write articles ou democracy for publication outside China.

What is remarkable in the two cases is that both Mr. Wei and Mr. Yn have defiantly told the security establishment that they intend to go forward with their activities.

Mr. Wei has told associates that despite the seven warnings he has received since he was released from prison last

September, he has made it clear to the anthorities that he will racy forces emerge to challenge the legitimacy of Communist rule.

In pointed defiance, Mr. Wei made public a letter to the Beajing Faults Washington International Olympie Committee asking the body to bring sanctions against China for jailing a young pamphleteer, Qin Yongmin, who opposed China's bid last year to play host to the 2000 Summer Games. China lost the bid to Sydney.

Mr. Qin, the pamphleteer, was recently sentenced without trial to two years at hard labor for drafting a "peace charter" last fall that called on the government to open a dialogue on political reform in China. Hard-labor sentences intended to reform" prisoners are common in China.

The standoff between some dissidents and the party leadership is a product of the enormous pressure on China to improve its human-rights record.

President Bill Clinton has warned Beijing that he will cancel China's favorable trade status this June unless the leadership demonstrates "overall, significant progress" in accounting for and releasing political prisoners.

The problem for the Politbure is that each time it loosens the security apparatus's control over the population, democ-

Coinciding with the visit of John Shattuck, Washington's senior human-rights official, China accused the United States on Sunday of playing power politics under the guise of safeguarding human rights. The Associated Press reported

The official Xinhus news agency carried a commentary, which concluded: "The United States will certainly not succeed in its plot of practicing power politics and begemon-ism under the excuse of human rights."

Mr. Shattnek, assistant secretary of state for human rights. arrived in Beijing for meetings that begin Monday with Deputy Foreign Minister Qin Huasun on human rights. He is expected to remind the Chinese of Mr. Clinton's decision to make this year's renewal of China's most-favored-nation trading status conditional on improvements in its human-

Probe Urged In Malaysia **Bribe Charge**

KUALA LUMPUR — The op-position leader, Lim Kit Siang, called Sunday for a special investigation into allegations that Malaysian leaders received bribes from British companies in exchange for business contracts.

In calling for the investigation, Mr. Lim, secretary-general of the Democratic Action Party, said sanctions imposed on the compa-nies were uncalled for and unjusti-

On Friday, Malaysia barred British companies from govern-ment-linked contracts in retaliation for British press reports alleging that Malaysian officials had taken

Mr. Lim said his party would only support the ban "if we are convinced that there is no basis to the numerous allegations of cor-ruption, bribery and improprieties implicating the Malaysian govern-

ment and its ministers." The ban means the loss of huge business deals for British firms, in-cluding contracts for building a \$3.2 billion international airport. near Kuala Lumpur. Malaysia, a former British colony, is Britain's second biegest Asian-Pacific mar-ket, after Hong Kong.

Government Tries to Sway Zulu Chief

JOHANNESBURG - The South African government held a second day of talks on Sunday with Mangosuthu Buthelezi, the Zolin chief, in the hope of persuading him to participate in the country's

first all-race elections. Home Affairs Minister Danie Schutte, who conducted the talks on behalf of the government in the Kwazulu homeland capital of Ulundi, was waiting for a response from the Inkatha Freedom Party

leader, Mr. Schutte's secretary said. "At the moment there is no decision yet on the participation of In-katha," said the secretary, Frik Le Roux. "We are still optimistic. But he added that with the April 26-28 elections two months away, time was ranning out.

Mr. Schutte said Saturday that little progress had been made after more than three hours of talks with Chief Buthelezi and his nephew, Goodwill Zwelithini, the Zulu king. Mr. Schutte met Chief Buthelezi alone later Saturday night and Sun-day morning. Mr. Le Roux said those discussions had been "very frank and friendly."

The talks were the government's latest effort to avert an election boycott by the party dominated by the Zulus. Chief Buthelezi and his white rightist allies in the Freedom Alliance have warned of civil war. They say they cannot take part in the April vote, charging that the interim constitution ignores their demands for ethnic self-determina-

The African National Congress leader, Nelson Mandela, meanwhile, plans to meet Chief Buthelezi on Tuesday for the first meeting in nine months to ask him to drop his boycott threat.

White 'Homeland' Is Not Bliss for South Africans

Even the one thing that would

seem to unite the citizenry of Orania, their aversion to South Africa's black majority, divides them. A bitter rift has developed between those who profess a philosophy of separate but equal, and those, like the Smits, who simply despise blacks as subhuman. The view that blacks have oo

souls and cannot enter beaven is espoused by a sect called the Israelite Vision, which has prospered on the right-wing fringe. In Orania the sect is growing so fast that some original settlers fear it will take over the 80-member board of property owners that runs the village. For the founders, whose mantra

is that they are not racists, it is something of an embarrassment that their village attracts such peo-ple — and accepts them.

Orania is the brainchild of Mr. Boshoff, a retired theologian who with 29 other separatists bought the vacant village for \$570,000. The deal included 1,167 acres of prairie, 150 faded clapboard houses, a recycling plant for garden water, a

grew to more than 2,000 people but failed because the whites were soon outnumbered by black labor. The novelty of Orania was that whites would start anew heeding the slogan painted in Afrikaans on Oran-ia's billboards, "We do our own

"In South Africa," Mrs. Boshoff said, "when an Afrikaner says Tm going to do something on my own,' he's talking about himself and 20 black people." In theory, residents of Orania

must be Afrikaners, descendants of the Dutch and the French who settled here in the 17th century. In practice, the standards are more

THE AMERICAS / A STATE OF THE AMERICAS

·The Bloom Is Off a Little Rock Firm in Washington's Harsh Public Light

By Stephen Labaton

WASHINGTON - With Hillary Rodham Clinton in the White House and three other partners taking influen-tial jobs in the Chinton administration, the Rose Law Firm of Little Rock seemed to be on the verge of national prominence a year ago.

But things quickly went awry. The Rose firm, which made itself a dominant power in its home state, is suffering in public now under the unforgiving glare of publicity. Vincent W. Foster Jr., one of the partners who moved to Washington as a top White House lawyer, committed suicide. A coveted spot on the national scene has failed to materialize. Last month, an independent counsel opened an office in Little Rock to investigate accusations of fraud and conflict of interest that keep leading back to the converied YWCA building that is the Rose headquarters. Instead of basking in the glory of its ties to the Clinton White House, the firm has had to hire lawyers to defend

The latest order issued to the firm by Mr. Fiske about preserving documents was prompted by an article in The Washington Times quoting an unidentified employee who claimed to have seen the shredding this month of business records that relate to the Clintons' real-estate interests.

Only a few years ago, the Rose firm was looking other unrelated material was destroyed and may have forward to a large expansion. It built a large addition to its headquarters and planned to double its own to a large expansion. Ronald M. Clark, the firm's administrative partner, said

Mr. Clark said the firm began a policy of shredding confidential client material in 1992, as the firm became the focus of more attention because of Mr. Clinton's cam-

"Every firm in America destroys sensitive material," he said. "There is absolutely nothing wrong with that."

4 Cultists Acquitted In Texas Killings Of Federal Agents

By Sue Anne Pressley Washington Post Service

SAN ANTONIO, Texas - In tory for religious freedom, a jury rejected conspiracy murder charges against 11 Branch Davidians in the deaths last year of four federal agents. Seven of the defendants were convicted of lesser ctimes, and four will go free.

The verdiet Saturday came two

days short of the anniversary of the Feb. 28 gun battle last year be-lween agents of the Bureau of Alco-hol. Tobacco and Firearms and followers of self-styled doomsday Throughout the seven-week trial,

defense attorneys had challenged the government's use of force in the case, claiming the Branch-Davi-dians had been attacked in their home near Waco by an overzealous

law coforcement agency.

This jury has slowed down the runaway liorse, said a defense lawyer. Tim Evans of Fort Worth. "If you don't say Whoa' every now and then, we would end up with a paramilitary police state." Attorney General Janet Reno

saw the verdict differently.

"It is clear by this verdict that the jury found that the deaths were not justified," she said in Washington. She had the FBI attempt to end the siege by firing tear gas into the Mount Carmel compound last. April 19. "I have always said that I didn't look at this in terms of vindi-

woman — faced the possibility of life in prison without parole if the jury of eight women and four men had convicted them on all counts. Five Branch Davidians were found

President, Hailing Gun Law, Urges Sterner Measures

WASHINGTON - President Bill Clinton, predicting that thou-sands of marders would be pre-vented after limits on handgan sales become law Monday, is urging Congress to pass a "tough and

smart" anti-crime package.

Mr. Clinton, delivering his weekly radio address Saturday from a police station not far from the U.S. Capitol, noted that the United States for the first time would have nationwide controls on handeum purchases when the law takes ef-

"The law will prevent thousands of handgun murders," Mr. Clinton said. It requires gun sellers to wait five working days before releasing a weapon to a customer to give the police time to conduct background checks. checks.

Congress is expected to pass a crime package this year as public shooting. concern grows over violence on America's streets. We need a new crime bill that is both tough and

smart," the president said. Mr. Clinton favors legislation that would impose the death penalty for killing a police officer and life sentences for people convicted of three violent crimes. He also seeks funding for a 100,000 more local police officers.

guilty of aiding and abetting volun-tary manslaughter of federal officers, which carries a maximum 10what defense lawyers called a vic- year sentence. Two others were convicted of firearms violations.

One freed defendant, Clive Doyle, described his release as "a somewhat hollow victory." With tears streaming down his face, sometimes unable to speak, Mr. Doyle, 52, said he could not help thinking about the losses of his friends and relatives in the initial firefight and in the subsequent April 19 fire that destroyed the seet's compound and ended its 51day standoff with federal authorities. Discovered in the ruins were the bodies of Mr. Koresh and about 80 of his followers, including Mr. Doyle's daughter. Shari.

"The Branch Davidians are not anti-government or anti-law enforcement," said Mr. Doyle, an Australian-born naturalized U.S. citizen. "Tm sorry four agents are dead. Those in charge of that agen-cy are responsible for that."

Woodrow Kendrick, 63; also freed, said through tears that he was "still proud to be a Branch Davidian." He described Mr. Koresh as having "had more compassion for all humankind than anyone I have ever met," and that he "loved the children like Christ did 2,000 years ago,"

Two other Branch Davidians who were cleared — Ruth Riddle, 30, a Canadian citizen, and Norman Aluson, 29, who is British — The defendants - 10 men and a Were in the United States illegally and will be deported.

in trying to prove that the federal agents were ambushed by the Branch Davidians and that the sect had prepared a full year for the bloody confrontation. Ray Jahn, the chief prosecutor, said that the four agents — Steven D. Willis, Robert Williams, Conway LeBleu and Todd W. McKeehan — "died protecting the constitution they swore to protect."

He said he could not account for the jury's decision, except to suggest that "perhaps they thought the people who died were the actual conspirators and these people were perhaps the tag-alongs."

Asked if the verdict was a statement against the use of excessive force by police agencies, Mr. Jahn replied that "if there was excessive force, that needs to be resolved in the court, not from the barrel of a gim." He went on to thank the agents, "a group of very brave men and women who on Feb. 28 walked into a murderous assault."

The only relative of a slain agent in the courtroom Saturday was Lisa Willis of Houston, the sister of Stevon Willis. Testimony showed that Mr. Willis was most likely shot in the head by a Branch Davidian. Brad Eugene Branch, as Mr. Willis crouched behind a van during the

"I think it should have been 100 percent guilty on all counts," she said as she stalked out of the courthouse ...

The seven convicted defendants all face maximum penalties of 10 years in prison and \$250,000 fines. U.S. District Judge Walter B. Smith Jr. said they would be sen-

Elders Urges Family Planning

WASHINGTON — The surgeon general of the United States. Dr. Jaycelyn Elders, says Medicaid must have been developed by "a white male slave owner" because "it fails to provide services to poor womer, to prevent unwanted pregnancies, and this failure contributes to poverty, ignorance and en-

At the same time. Dr. Elders said the government should work closely with churches to improve public health and provide social services to

our poorest and most helpless citizens." "We always talked about the separation of church and state." Dr. Elders said, "I want to forget about the separation. Let's try to integrate church and state so we can come together and

begin to do things that make a difference to people in our community Dr. Elders made the comments in a speech at the annual meeting of the National Family Planning and Reproductive Health Association, which rep-

resents more than 4,000 family planning clinics. She elaborated on the comments in an interview, Medicaid was created in 1965 to help finance health care for low-income people. It now serves 33 million Americans. State Medicaid programs generally must cover family planning services and

supplies, but many low-income women do not qualify, Moreover, Dr. Elders said, the eligibility criteria for pregnant women seeking prenatal care and obstetrical services were more liberal than the

"If we really want to do something about illegiti-mate births and unwanted births," she said, "Med-icaid should support family planning at the same level as prenatal care." "The Medicaid system must have been developed by a white male slave owner." she said, "It

pays for you to be pregnant and have a baby, but it won't pay for much family planning." White male slave owners wanted a lot of healthy slaves, people to work," she observed, "We

don't need slaves any more. We need healthy,

educated, motivated children with hope. We need to really invest in family planning."

A Favor for the White House? WASHINGTON — A day after acknowledging that he had held an unusual briefing for senior White House officials, the acting head of Resolution Trust Corp. said that he was removing himself from his agency's investigation of a failed Arkan-sas savings and loan at the center of the inquiry into the Clintons' real estate investments.

An administration official said that Deputy Treasury Secretary Roger C. Altman, who is also the acting head of Resolution Trust Corp., had expressed regret over his briefing of senior White House aides on the agency's investigation into the savings association, Madison Guaranty, and its lawyers and executives.

Madison was owned by James B. McDougal and his wife. Susan, the Clintons' partners in a real estate venture known as Whitewater Development

Under questioning by Senate Republicans, Mr. Altman said he met three weeks ago with the White House counsel, Bernard W. Nussbaum; the deputy chief of staff, Harold M. Ickes; and Margaret Williams, chief of staff for Hillary Rodham Clin-

Mr. Aliman said he had told the White House aides three weeks ago that Resolution Trust was facing an imminent deadline to decide whether it would file any cases against Madison's executives or its lawyers, because the statute of limitations would run out on Feb. 28.

UN to Risk Bolder Stance on Aid Convoys

By John Pomfret

Washington Past Service SARAJEVO, Bosnia-Herzegovina — In an important policy shift designed to bolster the resurgent United Nations operation in Bosnia, the commander of UN forces in Bosnia has decided to move relief convoys through the country without asking permission from battling factions, UN officials said

The first important test of the new policy will occur Monday when UN relief convoys are scheduled to travel from Metkovic in Croatia up a long-obstructed road through Mostar and Jablanica to

Sarajevo. UN officials said, however, that a second test, the movement of UN aid convoys across Sarajevo's battle-scarred Bridge of Brotherhood and Unity, which connects Serbian-held territory with land controlled by the Muslims, would probably be postponed because Serbian Army officers have warned UN aid workers that they will

Under the new guidelines, UN officials will notify the warring sides that they plan to take convoys across their lines but no longer will they allow the convoys to be turned back. The decision, made by Sir Michael Rose, the British lieutenant general commanding the UN forces, highlights the increasingly aggressive line that General Rose has taken since he arrived in Bosnia more than a month ago.

Still, the change in a UN policy, which previously sought to placate rival factions by allowing them almost complete freedom to decide which convoys went where, will come as a shock to Bosnia's warring bands and could prove dangerous for the UN operation.

Indeed, a) a meeting on Sunday afternoon in Lukavica Barracks, from where Serbian forces have guided their 22-month-old siege of Sarajevo, Serbian officers warned UN aid workers not to try to cross the Saraievo bridge, again putting

shoot at convoys trying to pass over the Bosnian Serbs on a collision vilian traffic. Then General Soubirthe bridge.

ou's office issued a contradictory

"The Serbs told us there is no way we're going across," a UN offi-cial said. "We said that under the new rules we didn't need their approval and that we were simply notifying them. They said they would shoot."

General Rose could call on North Atlantic Treaty Organization planes if his convoys were blocked. The UN Security Council approved the use of "necessary force" to deliver humanitarian aid in Bosnia as far back as 1992, but so far it has never been invoked.

UN officers in Sarajevo appeared split between those like General Rose who is pushing the bolder approach and Brigadier General André Soubirou of France, commander of the Saraje-vo sector, who favors the old UN

General Rose's headquarters said first that the Bridge of Brotherhood and Unity would be opened Monday for relief convoys and ci-

ou's office issued a contradictory announcement, saying the bridge would be open only for civilian

"We are a little confused here." said one UN aid official.

■ Rose Seeks More Troops

A Muslim-Croatian truce appeared shaky on Sunday, adding weight to a plea by the United Nations commander in Bosnia-Herzegovina for more troops to back it up, Reuters reported from

General Rose said the cease-fire and efforts to negotiate a peace settlement could fail unless the West committed more forces. "People here have really had enough of this senseless killing." he

General Rose said he wanted 3,000 to 5,000 more UN peacekeeping troops as quickly as possihle to form a buffer between warring Muslim and Croatian forces.

Alexander V. Rutskoi, the former Russian vice president, who was among those freed from prison on a parliamentary amnesty, leaving his apartment Sunday to go for a walk with his son and his dog.

SPY: Schoolmates Recall Accused CLA Agent as Being 'Witty,' Not 'Wily'

Rosario Ames chided her husband after he admitted his reluctance to go out in the rain.

High school classmates were so impressed hy Ricky Ames's cleverness that they voted him "wittiest" during senior year. The hlack-and-white photo illustrating this award shows Ricky Ames hamming it up, hand clutching his belly and face scrunched up in a huge guffaw.

The criminal complaint against Mr. Ames and his wife notes that a northwest Washington mailbox he allegedly marked with chalk as a signal to KGB handlers was code-named "S.S.

"He traveled with this set that was a combination of artsy-crafty and intellectual," recalled Michael Horwatt, an attorney who was a highschool chum. "They liked the game of cleverness. They had a touch of smugness about

Herh Erb was siunned to learn that the Aldrich Hazen Ames making headlines was the Ricky Ames he used to pal around with.

mean, he never struck me as the wily kind," he said. "I thought he was going to be a thespian. He had more of an artistic bent than a bureaucratic bent. I wouldn't have pictured him working in an organization as highly structured

Of more than a dozen former classmates, friends and distant relatives, most had vivid memories not of Ricky Ames, but of his moth-modest brick Cape Cod across the street from

Rachel Ames was described as a woman of extraordinary integrity, a doting mother and a beloved teacher at McLean High School. "He was the apple of her eye, really," recalled a family friend, Jane Wilhelm. "I think it might

kill her to know this if she were still alive." Mr. Ames was a second-generation spy for the Central Intelligence Agency, the only son of a history professor recruited by the agency in the 1950s. Carleton Ames soon traded his ivory-tower life in Wisconsin for a dangerous and exotic posting in newly independent Burma. Ricky moved with his parents and his two

younger sisters to Rangoon when he was 10.

Mrs. Wilhelm, now 80, can still see him all
spiffed up for his first day of school at the new
British academy there. Mr. Wilhelm was enrolling her own three children that day. She and Rachel Ames became lifelong friends until Mrs. Ames, by then a widow, died of a heart attack in

"Carleton was a very handsome man, tall, with a beautiful mane of gray hair," recalled Mrs. Wilhelm, who later became the assistant principal at McLean High and got Mrs. Ames

Others also remembered Carleton Ames as an imposing, somewhat dashing figure. It was an open secret that he was a CIA agent. There was something else Carleton Ames could not

hide very well either: his alcoholism.

Mrs. Wilhelm and several other longtime family friends acknowledged this. Carleton Ames was known to sometimes go on binges and vanish. It was not something the glib Ricky Ames was given 10 talking about.

"His mother was generally viewed as a saint," said one former friend, "She went through hell," The friend remembered someone telling him

that Carleton Ames "would kind of disappear off the radar screen."

Mrs. Ames would take solace in the fact that, wherever he was, the CIA would find him," the friend said.

Still, Carleton Ames evidently provided something of a role model for Ricky, who, like his father, earned a college degree in history, and, like his father, joined the ClA. "Ricky never had any job except the ClA his whole life," Mrs. Wilhelm said.

"not seeking revenge. He is a realist and is sure of himself."

Mr. Fyodorov said he expected Mr. Rutskoi to make some statement in a couple of weeks, after he has had a chance to assess the new economic and political climate,

Since the October uprising, Russians have elected a new parliament dominated by Communists and ultranationalists as opposed to many of Mr. Yeltsin's political and eco-nomic reforms as Mr. Rutskoi and other rebels were.

At the same time, Mr. Yeltsin himself appears to he moving to-ward more centrist positions, including softening economic reform and reasserting Russia's interests more assertively overseas. The leading opposition politician is now Vladimir V. Zhirinovsky, an ultranationalist who also intends to run for president in 1996

MERCY OF A RUDE

Mt. Morris Park

Vol. 1, A Star Shines Over

By Henry Roth. 290 pages. \$23.

By now most readers of serious fiction know the imusual history of Henry Roth's "Call It Sleep," arguably one of the half-dozen best American novels of the

20th century. Almost forgotten for decades after it appeared in 1934, it was reprinted and acclaimed as a

classic in 1964 and has sold over a

million copies in the 30 years since.

Written with an ecstatic antobio-graphical intensity, "Call It Sleep"

portrays the terror and cariosity of

New York just before World War I. Roth's difficulties as a writer af-

ter "Call ft Sleep" were legendary. He came to feel that he should have

taken up the thread of the young

boy's story, pursuing the personal vein his talent demanded. Instead

be joined the Communist Party and

tried to write proletarian fiction, struggling with panic, self-hatred, and depression until he abandoned

writing entirely.

porters when he emerged from his could not bear to anthorize the recentral Moscow apartment build-ing briefly Sunday to walk his dog. and pogrouss." His deputy ended up signing the amnesty papers.

It was a day of bitter irony for.

Mr. Yeltsin, who almost five

months ago seemed to have won a final, if bloody, struggle, with opponents who had sought to derail his reforms and force him out of the presidency. On Saturday they walked free, courtesy of the new parliament and the new, Yeltsindrafted constitution, both installed as a result of the Dec. 12 election and referendem that the Russian leader had hoped would usher in a

more cooperative era. Mr. Yeltsin has made no direct public comment on the amnesty, and his advisers seemed in disarray about how to respond. Even after Mr. Yeltsin's bitterest foes had been freed, his advisers were bickering about who was responsible ampering with the amnesty. Mr. and whether the amnesty decree

Plan Seeks To Contain 'Outlaw' **Nations**

The Associated Press WASHINGTON - The U.S. national security adviser, W. Anthony Lake, has laid out a plan for "dual containment" of Iraq and Iran and their hostility to the Unitexi States.

He calls them "outlaw" and "backlash" states, along with Cuba, North Korea and Libya.
But Mr. Lake makes a distinc-

tion between Saddam Hussein's Iraq and the fundamentalist Muslim government of Iran in an article appearing Monday in the quarterly Foreign Affairs. He says the Clinton administration supports Iraqi exiles, who want to overthrow Mr. Saddam. With Iran, he foresees the

possibility of better relations. "In Iraq, the regime is responsi-ble for both war crimes and crimes against humanity, a regime whose invasion of Kuwait and gassing of its own people have rendered it an international renegade," he wrote. He also condemns "ontlaw behavior" by Iran, saying it "is the foremost sponsor of terrorism and

assassination worldwide." But he "We remain ready for an authoritative dialogue in which we will raise aspects of Iranian behavior

that cause us so much concern." The Clinton administration "is not confronting a blatantly aggressive state that invaded and occu-pied a weaker neighbor," he says. Mr. Lake lays ont different ways of dealing with the two countries. In a swipe at former Presidents Ronald Reagan and George Bush, he recalled that they tried to build

up "moderates" in Iran. These same 'moderates' are responsible for the very policies we find so objectionable," he wrote.

He said Iran wanted to dominate

the Gulf. To prevent that, he noted cooperation by the Clinton administration with allies to keep materials for chemical and nuclear weap-ons out of Iranian hands. It also keeps watch to prevent Iran from getting missiles from "current sup-pliers, including North Korea," he

He calls containment of Iran a harder job because some countries want to deal with it and there are no United Nations Security Council resolutions against Iran as there

are against Iraq.

The international community is sufficiently alarmed by Mr. Saddam's behavior, he says, to support Washington's insistence on full compliance of sanctions imposed three years ago, after Iraq's inva-sion of Kuwait.

The rediscovery of "Call It Sleep" propelled Roth to give up his hard life as a waterfowl farmer in Maine, to move to New Mexico and sporadically to begin writing again. The results were spotty until 1979, when he embarked on a huge autobio-graphical novel called "Mercy of a Rude Stream." It was never intended to appear in his lifetime but now, the first of six completed volumes comes before us, just as the author

"Mercy of a Rude Stream" is less a sequel to "Call It Sleep" than a continuing assault on the same autohiographical terrain. On the surface the family in "Mercy of a Rude Stream" is the same as in "Call It Sleep": the sensi-tive, clever, easily frightened child,

Roth's interpolations are cast as

"Mercy of a Rude Stream," though it dwells on the boy's love of words and stories, is no Romantic myth of the artist's calling but a Lear-like work about an old man remembering. It turns on a mor-dant speech by Cardinal Wolsey in Shakespeare's "Henry VIII," after

hide me." The rude stream of course is

time, the vagaries of fortune. Roth now feels that it has been genuinely merciful, allowing him finally to overcome his self-contempt and piece together these remote, indeli-ble memories. He has not lost his talent for vivid description. In recapturing fragments of his own past, he also brings back a lost world - the streets, tenements, schools, parks, and trolley cars of Jewish and Irish Harlem 80 years ago, as well as a boisterous immigrant family straight off the boat. Like a man who has stared too

long at the sun, the writer is obsessed with the enigma of his life, especially his failure to develop from the bright promise of his first book. This is partly a diagnostic work, a case study cast as personal history, with a journal of explanations cutting across the pages of a novel. More discontinuous, less gripping than "Call It Sleep," it is nonetheless an essential pendant to it. That the book exists at all is a miracle. By returning to literature and resuming his story in old age, Roth has wrested an unlikely trophy from the chitches of unhappiness, depression and inner turmo

The Massacre at Hebron

West Bank is being attributed by Israeli officials to one deranged man. But the Americanborn doctor whose attack led to the death of more than 40 Muslims and the wounding of perhaps 170 others, while he perhaps acted alone, acted in a political context created by others who were not deranged. The hroad context was one of an occupation that rose from a deep hostility between Arabs and Israelis and has been sustained by their mutual inability to find a way to live side by side.

The narrower context arose from the Israeli government's failure to control the proven enace of armed settlers determined to defy their own government's reach for peace. This is the lesson of this awful incident: not that one crazed Jewish settler did it but that the supposedly responsible authorius on both sides failed to do everything they could to prevent it. For instance, the Israeli government might have taken earlier some of the steps it began taking after the killing to better police the West Bank settlers.

Friday's slaughter differs only in degree from the violence that Israelis and Palesunians have been dealing to each other for decades. It will no doubt stoke further rage

The terrible slaughter at Hebron in the vest Bank is being attributed by Israeli offi-lials to one deranged man. But the Americanlast month, it has the potential — by the media-multiplied shock of the death toll — to alter the conduct of the conflict of which it is a part. If properly exploited, the incident could conceivably rescue violence from the deadly routine of another "cycle" and summon political leaders to review their approach to peace bargaining. The Hebron crime is a glimpse of a future that neither Israelis nor Palestinians can possibly want to taste and share.

President Bill Clinton responded with a call to Israelis and Palesunians to resume their peace talks promptly in Washington and to stay "in continuous session until their work is completed." Both accepted. At too slow a pace, they have been fighting out details of the agreement for limited Palestinian autonomy and Israeli withdrawal that they signed in Washington last fall. Hebron underlines the urgency. An agreement would not directly touch the site of the latest crime, but it would provide Israelis and Palestinians an essential demonstration that their fate is in the hands of political leaders, not murderers.

-THE WASHINGTON POST.

In Mexico, a Healthy Turn

Mexican state of Chiapas, where government and guerrilla negotiators seem to have reached agreements on several local issues.

Even more important for the rest of Mexico is another set of talks proceeding more quietly between the country's main political parties. The subject is bow to make this year's presidential elections fairer and more believable

than the fraud-ridden exercises of the past. A major breakthrough on this front could come as soon as Monday, when the parties meet again in Mexico City. But that is only likely to happen if the ruling party's presidential candidate, Luis Donaldo Colosio Mur-rieta, actively aligns himself with the cause of electoral reform.

The two sets of talks - Chiapas and Mexico City - are linked. Electoral reform had been swept off the political agenda until armed Zapatista guerrillas burst into several Chiapan towns on Jan. I demanding national as well as local changes. When the government treated this as a purely local uprising. national opposition parties took up some of the Zapatista electoral demands as their own.

Alarmed by displays of broad public sympathy for the rebel program, the ruling Institutional Revolutionary Party, or PRI. abruptly softened its anti-reform stance. The first result was an informal pact between all the main parties late last month. Now, the opposttion parties are pressing for further changes and for formal codification of what has been agreed into enforceable laws,

The PRI has monopolized national power since it was formed by the victorious generals of the Mexican Revolution in 1928. The last presidential election, in 1988, was marred by lost ballots, mysteriously stalled computers and doubt about whether the PRI candidate, Carlos Salinas de Gortari, had actually won. Since then, Mr. Salinas has strengthened the PRI and cleaned up some of the most flagrant abuses. But as the current presidential campaign began, the old unreformed and increasingly

embarrassing system creaked back to life, Without benefit of primaries or any other democratic instrument, Mr. Salinas personally decreed Mr. Colosio as his chosen successor. Though the automatic front-runner, the PRI candidate has no independent mandate of his own, not a happy situation for him or one likely to promote public trust in the political system.

As Mexico's parties work out the mechani-cal details of electoral reform, the most constructive role for the Clinton administration would be to make clear Washington's preference for a campaign free of intimidation and a ballot count free of fraud,

The main actors in this drama are the Mexi-cans themselves. A number of them, including Mr. Salinas, and his peace negotiator in Chiapas, Manuel Camacho Solls, have risen admirably to the challenge, In fact, Mr. Camacho, who was passed over for the PRI presidential nomination, has thoroughly stolen the lime-light from the official nominee. Mr. Colosio.

Mr. Colosio can grab it back, and establish some independent credibility, by strongly and publicly identifying himself with the cause of radical democratic reform.

- THE NEW YORK TIMES.

These Fallen Journalists

The murder of journalists has become a global plague. At least 56 journalists were killed last year while gathering news, includ-ing nine in Algeria, seven in Moscow, four in Turkey and three in Angola.

Within the past 13 months, five journalists died while on duty for The Associated Press. the greatest toll in so short a period in the

agency's 146-year history.

Why the escalation? One reason is that the rules bave changed. In earlier wars, belligerents generally tolerated correspondents, who were normally unarmed and plainly identified. Now journalists are not only exposed to fire hut deliberately targeted, as in Bosnia. or

taken bostage, as in Beirut. This happens in the United States, too. Two years ago in Queens, New York, a crusading journalist, Manuel de Dios Unanue, was gunned down by a contract killer who, under orders from a Colombian drug cartel, silenced the former editor of New York's leading

Spanish-language daily, El Diario-La Prensa. The proper response is for governments and press organizations to clamor for the

killers' prosection. That was possible in Mr. de Dios's case hut is not always feasible elsewhere. The AP staff members were killed in turbulent circumstances in Somalia, Afghanistan. South Africa and in a battle between Georgian and Ahkhazian soldiers in the former Soviet Union.

But where killers are beyond the reach of justice, the memory of the dead can be kept alive. A recent conference commemorated the death of four journalists in Mogadishu last July. All were killed by a mob because they were foreign journalists.

One of the victims was Dan Eldon, a 22year-old Reuters photographer. A selection of evocative pictures of Somalia is now on display at the Columbia University School of International and Public Affairs, in New York.

There is as yet no single place where the names and work of journalists like Dan Eldon can be preserved; perhaps it is time to consider such a memorial to those who have given their lives while recording the bravery and follies of the human race.

- THE NEW YORK TIMES.

Other Comment

Let There Be No More Hebrons

The critical task facing Israeli and Palestinian authorities now is to use every means at their disposal to try to make the latest terrorist outrage that has occurred in the long war between their two peoples the last.

It is vital that the political fanatics, the religious zealots, the armed lunaties on both sides be disarmed and watched closely, not simply because the delicate peace process must be defended but, fundamentally and imperatively, to prevent any more innocent hlood from being shed.

Prime Minister Yitzhak Rabin's government, condemning the killings in the strongest terms, has taken an important step to tighten what clearly were inadequate controls over those Israelis who have made no secret of their fierce opposition to

a peace agreement with the Palestinians. President Bill Clinton announced soon after that Israel and the Palestine Liberation Organization had agreed to move their talks from Egypt back to Washington, and to intensify the negotiations in hope of reaching a prompt agreement for the first phase of Pales-tinian interim self-rule. The peace process, in short, won't be sidetracked by the butchery in Hebron. Aiding that decision may have been the good-faith offer from Israel to compensate

the families of the mosque casualties. But the horror of the Hebron massacre, like the borror of earlier wanton terrorist killings that have taken lives on both sides, won't soon be forgotten. The job of the peacemakers, more urgent now than ever, is to strive to cut loose from the legacy of hatred and distrust that these incidents represent.

May We First Mourn the Dead?

WASHINGTON — The internal demons of Baruch Goldstein, the Israeli settler who massacred dozens of Palestinians in Hebron on Friday, are beyond our reach or understanding. They died with Mr. Goldstein. But the spore of those demons lives on in the political uses that others would make of Mr. Goldstein's crime against humanity.

The blood had not been scrubbed from the floor of the Ibrahim Mosque in Hebron before members of Kach, the racist anti-Arah movement founded by Rahbi Meir Ka-hane, rushed to tell interviewers that

massacre, bureaucrats and politicians put their own needs above the horrors visited on victims and their families.

Reacting to the Hebron

Mr. Goldstein's massacre was an act of valor. The killings were necessary to derail a peace agreement that would be fatal for Israel if carried through, a Kach member told CNN.

Modern atrocities are followed by such electronic rituals. Today Jews in Kach tell us that their holy cause justifies the destruction of innocent bystanders in great numbers, echoing the jihad mentality of the Muslims who bombed the World Trade Center in New York a year ago.

Vengeance and justice are mine, say Kach and Islamie Fihad in the same breath. The initial reports of Mr. Goldstein's actions make the Brooklyn-born physician sound as twisted and internally angry as the suicide bombers of Hezbollah. In the special hell dead terrorists should oc-

cupy they can compare notes.

Invariably, what Mr. Goldstein and the Hezbollah bombers, the Serb militiamen who cut Croatian throats in the name of their Orthodox Christian religion and other terrorist-fanatics do is to pour out a lifetime of personal anger and frustration into acts they believe will have broad political effect. The bystanders they kill and maim are mere statistics in the box

must write in blood. In Israel, anonymous callers told Israel army radio that the Hebron killings were revenge for Rabbi Kahane's assassination by a Muslim

score of justice they believe they

By Jim Hoagland

gumman in New York in 1990. But the motivations and needs of political leaders and the societies they represent are far removed from the feelings of powerlessness and an-ger that usually spark individual ter-rorist outrages. Such acts rarely have the larger political impact that their perpetrators and supporters intend. The only lasting meaning of these acts lies in the lives wasted and shattered in the fire of revenge that acts

of terrorism express and stoke. Mr. Goldstein's murder spree will have only one immediate, sure consequence: It will cause the death of more Jews in the occupied territories. And those revenge killings by Palesminans will in time spawn new Gold-steins in what the diplomats chilling-ly call the "spiral of violence." The ritualistic reactions of

spokesmen for Kach today (and for Islamic Jihad tomorrow) demon-strate anew that any event, however irrational and tragic, can be exploit-ed by those interested only in their own agenda and version of the own agenda and version of the truth. These are good deaths, the spokesmen say: They can be put to our political use.

This is pathology on parade.

The politicians and diplomats the wife with the politicians and diplomate the wife was the wife mate targets of the

who are the ultimate targets of the Hebron massacre or the bombing of Pan Am Flight 103 respond with their own rituals, denying that ter-rorism will intimidate them. Secretary of State Warren Christopher immediately expressed horror over the terrorism in Hebron and asserted that it underscored the need for

"continuing the peace process."

That is a rational, efficient response for a U.S. diplomat trying to help engineer a settlement in the Middle East. But I suspect that if Barnch Goldstein had showed up at the Ibrahim Mosque with roses in-stead of an M-16 assault rifle, the State Department also would have reacted with a statement about the need to "continue the peace process."

The bureaucracy has its own needs. Evident in the statement on Hebron is a policymaker's horror over the potential impact of this event on diplomacy. Lacking is a considered reflection on the personal horrors visited on the victims and their families.

Prime Minister Yitzhak Rabin

was also predictable in his reaction. His denunciation of this "loathsome criminal act" distanced the Israeli government and the Israeli nation

from what Mr. Rabin called "crazed actions of disturbed individuals."

Palestmian spokesmen immediately cited the Hebron massacre as proof of the horrors of Israeli occupation and as reason for the Israelis to make greater concessions in their negotiations with Yasser Arafat. Otherwise, the peace process must stop, the Palestmians maintained. For Mr. Goldstein, his supporters

and 100 many others, the victims in Hebron are pieces on a chessboard of revenge and maneuver. Their lives cannot be restored or mended by a peace process or any other process. Their lives have been destroyed by an anger that happened to catch them at the wrong moment. They deserve our grief, not our calculation.

The Washington Post.

Stand Against This Climate of Hatred

By Michael Lerner

N EW YORK — The murder of more than 40 Palestinians at prayer in a mosque in the West Bank town of Hebron on Friday cannot be dismissed as the action of a psychopath and nothing more. Yes, Baruch Goldstein, a religiously observant Ye-shiva University graduate who was armed with an

shiva University graduate who was armed with an automatic rifle, was crazy. But his craziness mirrors a climate of hatred nurtured by Jews of the far right.

Threatened with the possibility of peace, a growing number of far-right Jews in America and Israel have talked as if a new Holocaust might occur unless the Israeli-Palestiman peace accord was scrapped.

Last month, many Orthodox congregations in New York beld a rally to "support the settlers," precisely when settlers called for violent acts and civil war to subvert the peace process. And the Likud party-says

suhvert the peace process. And the Liked party says that if it wins the next election, it will not honor accords exchanging land for peace reached by Prime Minister Yitzhak Rabin's government.

We in the Jewish religious peace movement are often called traitors; our lives have been threatened. Bombs have been placed near Peace Now and the New Israel Fund offices, and my magazine, Tikkun,

has received bomb threats.

The climate of hatred and violence directed at the peacemakers and peace supporters has virtually silenced those in the religious community who believe that the accords should be enthusiastically embraced. . . .

We frequently hear violent language from some in the Orthodox community and from like-minded non-Orthodox - language that insists that Palestinians in particular and Arabs in general can never be trusted, are not fully human and do not deserve the same right of national self-determination that the Jews fought for in creating Israel. .

Attending a Purim celebration in an Orthodox synagogue Thursday night, I overheard congregants discussing how they were financing a project in West Bank settlements whose aim was to strengthen the resolve to resist the peace process.

MET LOVE

Some Orthodox Jews have cheered West Bank terrorism against Palestinian civilians and some call Baruch Goldstein a martyr.

Many far-right Jews, raised on a diet of Holocanst stories and anti-Arab racism, are determined to show that Jews can be powerful—even if that power can be exercised only against an anamed and essentially defenseless Palestinian population. They do not recognize that the Palestinians have been the victims of a harsh military occupation for 77 were.

that the Palestinians have been the victims of a harsh-military occupation for 27 years.

President Rill Clinton acted wisely in inviting the Israelis and Palestinians to resume negotiations in Washington; to their credit, they accepted.

Unless Prime Minister Rabin acts quickly to ex-tend Palestinian self-rule throughout the West Bank, and quarantines West Bank settlers (and some re-strictions in settlers' freedom of movement were announced Sunday), he will give them here that they can derail the peace process through further manderous actions. murderous actions.

American Jews who wish to dissociate themselves from the extremists who consistently ignore Torah teachings about compatity must insist that the Israeli Army disarm all West Bank and Gaza actitors, and not just extremists. It is, also imaginable that those arms, if not used against Palestinian civilians, might be aimed at the Israeli Army as it enforces the

Religious Jews should press settlers to leave the West Bank or prepare to live as a minority in another people's country, reconciling themselves with a population that is properly indignant at the violence and oppression it has suffered. pression it has suffered.

American Jews can join with Mr. Rabin in express-

ing shame, as he did to Yasser Andre.
We need to feel shame not only over this massacre but over the systematic mause of Judaism and Jewish suffering to justify racist and oppressive freatment.

The writer is editor of Tildras, a Levish journal of apinion. He contributed this comment to The New York Times.

Europe, China and East Asia: Growing Closer Through Trade

BELIING — Europe must put a higher priority on East Asia. Rapid economic growth there has provided the world economy with a powerful shot in the arm and radically altered the balance of world economic power. The European Union is Europe has been increasing its pres-ence in other Asian markets. Our Pacific-Asia trade is growing much faster than our Atlantic trade. In 1992, for the first time, we traded more with East Asia than with the United States. Still we have far to go.

China's economy is now the 10th largest in the world (using marketchange rates). The International Monetary Fund reckons that if China, Hong Kong and Taiwan continue to grow at a 10 percent yearly rate until the year 2000, their economies will be twice as large, in real terms, as the Japanese economy, three times as large as that of Germany and slightly

larger than the U.S. economy.

The unreliability of such extrapolations aside, the question of integrating China into the multilateral trad-ing system is clearly urgent. The European Union has unequivocally velcomed the applications of China and Taiwan to join the General Agreement on Tariffs and Trade.

These are real negotiations. Membership in GATT or the World Trade Organization (which will settle dis-putes between GATT members after it opens its offices in Geneva next year) is no sinecure, nor is it impossiBy Leon Brittan

The writer, trade commissioner of the European Union, is in Beijing for EU-China talks, and will be meeting with Foreign Minister Wu Yi.

world economy and of the applicants. We will do all we can to allow China and Taiwan to join the World Trade Organization this year. But China must do more than half the work if we are to meet this target.

Chinese membership must be on a basis that gives full credit for reforms already accomplished. But it will be necessary for China to maintain the pace of reform (while guarding against market disruption) until it

bly difficult. If the terms are right, early membership for China and Taiwan would be in the interest of the quire agreement, not only with Chins but with all our trading partners. These include acceptable rules on trade and the environment. A conscasus will have to be hammered out in dialogue between governments as well as between industries. Later, the even more contentious issues of the relationship between trade and competition policy and trade and social policies will need to be tackled.

We should make it clear to China

do not want to replace the ideological conflicts of the Cold War with a Iresh battle between East and West over matters including democracy and luman rights. There must, however, be frank dialogue on these issues.

and investment flows between Europe and China and the other countries of East Asia. Not so long ago we had no permanent representations in East Asia. Today we have six, and this year we will be opening a seventh in Hanoi. The main drive will come from the private sector. Our responsibility is to encourage,

advise and warn; to engage in negotiation on issues requiring action by a third country (negotiating a better regnlatory environment for our busines operators in East Asia, for example), and to provide technical assistance where appropriate.

We are setting up business information centers to con The European Commission is work of European chambers of commerce. In Europe we are encouraging the establishment of networks of companies and industrial associations for lobbying and promotional work in Fast Asia

There is still a long way to go. But one thing is sure: Successful negotia-tion of Chinese participation in the world trading system will be good for China. It will also boost European efforts to grow closer to China and to East Asia as a whole.

International Herald Tribune

in might walker the service When Spies Owed Fealty to More Than Their Banks

PARIS — One can argue that nations get the traitors they deserve, but that makes for a sorry reflection on the United States today. Its past spies and traitors were a considerably better class of peo-ple than the newly arrested CIA official, Aldrich Ames, if what is said about him is true.

America's "atomic spies" of the 1940s, Julius and Ethel Rosenberg, were pious Communists of an age, origin and class for which communism had become a substitute for

nations to the producing nations.

dropped to the bottom of the list.

By William Pfaff

religion. They went bravely, uncompromisingly, to the electric chair, as Saint Lawrence went to the grill in the 3d century, from essentially parallel motivations.

Before and during the war, Alger
Hiss, Noel Field, Harry Dexter White

— if indeed they were spies, as al-leged — and Whittaker Chambers and Elizabeth Bentley, who certainly were, belonged to a Depression gen-eration convinced that capitalism had failed and Soviet communism was the future, and that to spy for the Soviet Union was to serve mankind. The British spies of the same period either believed in communism and a

golden socialist future, or were in revolt against the class obsession of British society. In any case, they believed they were responding to an interest larger than their self-interest. Donald Maclean, Guy Burgess, George Blake, Sir Anthony Blunt, even the mescurial Kim Philby, stood for something, even if in the cases of Mr. Burgess and Mr. Philby mischief was also a motive, a mischief turned toward tragedy.

Since those days, the quality of American spies has plummeted. In the 1980s and 1990s the only idealistically committed American spies of whom we have been made aware were Jonathan lay Pollard, who spied on the United States for Israel, and a CIA translator, Larry Wu-tai Chin, who spied for China. Mr. Pollard took too much money for his idealism defense to have convinced his jury, and he is now serving a life sentence. Mr. Chin committed suicide. There was also a CIA clerk in Ghana, in love with a Ghanaian - and love, as the poet says, defies the locksmith.

Otherwise we know of an American naval family, the Walkers, who made a family business of supplying informa-tion to the Soviets, a National Security Agency employee who did the same, and Edward Lee Howard of the CIA, who spied for the Soviet Union and then outwitted the FBI and got away to Moscow. All seem to have had no motive but money, the better to afford the American way of life. The case against Mr. Ames and his wife says

their motives were entirely mercenary. That this is so is a comment not only on American society but on what has become of the CIA, since America's intelligence service was in the be-ginning as idealistically committed as the Comintern agencies ever were. The CIA saw itself in 1947 as continuing the democracies' wartime struggle against totalitarismism into a new, even more dangerous period. Its officers were exceedingly high-

minded in the beginning. They were mostly recauted from Ivy League circles and privileged professions: The CIA was created by people who had entered government to fight World War II and stayed on because the new Soviet challenge seemed not only a warrant for public service but an occasion of historical importance.

Hence the sordidness of mercenary

betrayals from within the ranks. Yet mercenary betrayals are exactly what the CIA has sought and found in other countries over the 47 years of its existence. Britain's Cambridge spies were recruited by a Hungarian Comintern agent who was a former priest, prom-ising them secular justification. Amer-ican agent recruiters have mostly offered money, not moral rewards.

It is not, then, really surprising that

what allegedly animated the Ameses was the million and a half dollars, the Jaguar, the expensive house and the charge cards. The total sum the

Ameses are supposed to have re-ceived is considerably more than Mr. Ames was offering to Soviet officials during his days as a recruiter of spies. However, money is not the only worm of corrupt motivation at work in an intelligence service. Duplicity invites duplicity. Mr. Philby did his work, in part, for the perverse plea-sure of it. The secrecy of spying offers unaccountable power. John LeCarré, an ex-spy, wrote in 1986 of "the lure of secrecy itself" to the inadequate personality, the individual in need of a means for "feeling superior to life...

rather than engaging in it ..."
As for whether the Russians should have kept Mr. Ames at work after the Cold War ended, what would Washington have done in the same circumstances? The Russians' peculiar tri-umph was that they recycled America's meager aid money to pay for Mr. Amea's alleged treason, even as the American taxpayer was paying for his loyalty. Like Giver North at trangate, making Iran pay for the war in Nicaragua, they probably thought they were being rather clever.

10 Killed At Mass in Lebanon

2 Bombs Wound 60 Worshipers

BEIRUT - Two wired mortar: bombs planted near the altar blew up during Sunday Mass at a Mano-nite church in Lebanon, killing 10 worshippers and wounding 60, po-

The blast ripped through Sayyi-det el Najat (Our Lady of Salva-

det et Najat (Our Lady of Sarvation) church at Jounie, 12 kilometers (8 miles) north of Beisut,
shorily after 9 A.M.
Witnesses said dozens of people
were taking communion when the
82mm mortar bombs exploded.
They had been placed next to the wall, to the right of the first row of pews. The priest, Father Antione Steir, was seriously wounded in the

A four-year-old girl and several women were among the dead.

It was the deadliest bomb attack. ince a car bomb in mainly-Muslim West Beirut killed 17 persons in December 1991.

A badly wounded woman who was at the church told reporters at her hospital bed that she never heard the explosion. "I just felt I went deaf and I found myself flying," said the

Prime Minister Rafik Harisi, a Muslim, went to the church after the attack and said it was carried out by "foreign hands" to "cover up" the massacre of Arabs by an Israeli on Friday. A similar charge was made by Foreign Minister

Faris Bonez, a Maronite. Sami Khatib, who heads the Lebanese parliament's Defense Affairs Committee, went further: "The dark Israeli hands carried out

the crime," he said.
Information Minister Michel Samaha said the blast may have been . aimed at foiling Pope John Paul IPs visit to Lebanon this spring:

"It could be aimed against the Pope's visit, and we hope that it was not carried out by those who were against this visit," he said.

The Pope, speaking in St. Peter's Square, "denounced the bombing and the History massacre. He told religious and townists he was suffer. pilgrims and tourists he was suffering together with Maronite Christians over what he called "a crime that offends Lebimon and its noble

Arafat Brands Israeli Response 'Hollow'

TUNIS - Yasser Arafat said Sunday that Israel's pledge to crack down on Jewish extremists was oot enough and demanded international protection for Palestinians.

The Palestine Liberation Organization chairman left the door open for resuming peace talks with Israel, despite pressures to quit in protest over the killing of at least 40 people on Friday in a mosque in Hebron, in the occupied West

But he and top aides said that if the talks resumed, the focus would shift to the need for removing 144 Jewish settlements before the carrying out of the Sept. 13 Palestinian self-rule The bloodbath last Friday plunged Israel and

the occupied West Bank and Gaza Strip into chaos. By Sunday, the death toll from the massacre and subsequent rioting had climbed to 65, with about 360 wounded. Mr. Arafat, in an interview with The Associated Press, said the Israeli measures were "hol-

low and superficial." These are empty decisions which have no relation with the seriousness of the crime or

with the basis of resolving it," he said.

Unless the United Nations Security Council takes concrete decisions to provide international protection for the Palestinians, the whole Israeli Army" was oow the only way to deal peace process will be in jeopardy," Mr. Arafat said.

■ End Seen to Peace Efforts Youssef M. Ibrahim of The New York Times reported from Jericho, Israeli-occupied West

ship would have to make a decision on the issue.

Two Palestinian leaders from widely diverse ideological backgrounds said the West Bank

and the Gaza Strip stood on the edge of a violent explosion once a three-day mourning period over the massacre in Hehron came to an end on Monday. Both in their mid-30s, one belongs to El

Fatah, the mainstream faction of the PLO, and the other is an official of the militant Hamas movement, which opposes the PLO agreement with Israel and which has attacked Jewish set-

more ominous developments of an evolving fury in the occupied territories. Enemies until just a few weeks ago, the two men now agree that the efforts toward peace in the region were coming to an end and that a

Their presence together is perhaps one of the

new "armed uprising against settlers and the with Israeli occupation. "When I first heard the news of the butchery,

Asked if he accepted President Bill Clinton's largeli radio was nunting that the settler who did the killing was just another mentally unbal-washington, Mr. Arafat said the PLO leader-anced person." the Fatah official said.

"My very first thought was. Why when they kill us, they are crazy and when we kill them, we are terrorists.' The next thing that crossed my mind was a desire to go crazy, too, and shoot 50 Jews. Across the occupied territories, I assure you this is a thought that is today on everyone's

The Hamas leader said the line between "socalled moderate Palestinians who supported the peace process and us in Hamas has evapo-

"The peace agreement has become a skele-ton." he said. "There is oo meat on it. We have always said that to our Fatah colleagues. Now, they believe us. If he would listen, anyone in the occupied territories can tell Arafat that we have not suffered under 27 years of Israeli occupation for a peace that means a Jewish settler can walk inm a mosque at dawn and shoot to death unarmed men kneeling to worship their God." Pessimism was also expressed by loyal lieu-

tenants of Mr. Arafat. Faisal Husseini, the senior Palestinian offi-cial in Jerieho, said, "People don't believe in this peace process anymore, nor in our ability as Palestinian negotiators taking part in it in deliver tangible gains that would relieve the misery of everyday life under occupation.

They Hate Us, and We Hate Them'

HEBRON, Israeli-Occupied West Bank -As the sun rose on the morning after the Hebron massacre. Muna Mantaseo was thinking about the local Jewish settlers who often paraded through town with guns slung

The day before, Dr. Baruch Goldstein -3 resident of the ocarby Kiryat Arba settlement and member of the ultranationalist Jewish group Kach -- opened fire in a crowded mosque, killing at least 40 people and wounding scores more. At the mention of Kach, Mrs. Mautaseb clasped her head in her hands and said: "You can go into the center of the city and see them dancing and singing. There is something not right in their minds."

Across the windswept hills of this biblical city, wrath mixed with mourning as Palestinians talked of the massacre at the Mosque of Ibrahim in the Tomb of the Patriarchs - a site revered by Muslims, Jews and Christians alike. In many of their conversations, the same theme reverberated — that of a deepen-ing and possibly violent conflict with Jewish settlers in the Israeli-occupied West Bank and Gaza Strip.

Their sentiments go a long way toward explaining why the bloodbath last Friday threatens to strangle the nascent peace accord between Israel and the Palestine Liberation Organization.

A central feature of the agreement was deferral of negotiations oo the contentious issue of Jewish settlements until at least three years into the proposed five-year peace process. The postponement was largely in Isra-el's interest, since it allowed the government of Prime Minister Yitzhak Rabin to avoid the politically explosive question of whether setilements would have in be evacuated.

But the unintended impact of the Hebron massacre may be to force the issue of settlements into the limelight now, even as Israeli and Palestinian negotiators struggle to arrange the beginning of limited local self-rule in Gaza and the West Bank town of Jericho. Faisal Husseini, a prominent West Bank Palestinian leader, called the settlers a "time bomb" and demanded that Israel evacuate all of them from the Gaza Strip. "This is a oew

fore is not acceptable now." Even before the Hebron killings, Foreign Minister Shimon Peres had complained publicly of the expensive burden of defending a small, isolated Jewish settlement in Gaza.

period," he said. "What was acceptable be-

Last week, some Labor Party legislators opened a telephone hot line for settlers seeking government compensation to move out of the West Bank and Gaza, and the phones were busy, even though the government has said it is out yet prepared to offer such compensation. And Saturday, the leftist group Peace Now called on the government to order the evacuation of Jewish settlers from Hebron and to ban Kach and other

militant Jewish groups,
As the Palestinians of Hebron talked about the massacre, it was clear their main concern was the status of the settlements. Many said they did not accept the notion that Dr. Goldstein was a "crazed" lunatic, as Mr. Rabin described him, and they refused to believe he acted alone. Rather, the massacre has become for them a new incitement of the powerless-ness and anger that Palestinians feel in the midst of armed, militant Jewish settlers. "It won't be easy to go back to the inti-fada," said Issam Ramsch, a 28-year-old busi-

"But if the settlers cootinue like this, we will die for the intifada," he added. "It woo't be like before. It won't be with stones; it won't be with bottles. It will be with machine

For many Palestinians, the Hebron assault was the latest and worst reminder that the peace accord with Israel, signed Sept. 16 at the White House, has brought little tangible change to their lives and their relationship

"There is anger, sadness and powerlessness," said Said Zeedani, a professor of phi-losophy at Bir Zeit University in the West Bank. Since the attack was oot carried out directly by soldiers, be said, "it's not clearly the Israeli government you want to express your anger against. But it's not clear that this

was an individual action, either."

On the streets of Hebron, angry young men spoke of confroctation with the settlers. lyyad Abdou, a 21-year-old cabdriver, re-called that be had supported the peace accord, but now, sitting in a garage with a dozen friends, he spoke out harshiy against it.
"It's a terrible thing when people in your
own city are killed, and Israel didn't do
anything to stop this settler," he said. "There

is no chance for this agreement. You have to dismanule the settlements and kick the settlers out. This land is mine and not theirs. "Jews and Arabs cannot live together," he said as his friends nodded approval, "because there is a big problem, an old problem. They hate us, and we hate them. Every time a Jew kills an Arah, they say, he's crazy, and when

an Arab throws a stone, they say he's a

CAPITAL MARKETS

OECD Tallies Largest Rise In Borrowing in 7 Years

By Carl Gewirtz

ARIS —A record \$810.5 billion was raised in the international capital markets last year, a rise of 33 percent and the largest annual increase since 1986, the Organization for Beconomic Cooperation and Development reported in its February issue of Financial Market Trends. Net of refinancing, new borrowing is estimated to have risen \$100 billion, to \$340

Lending to borrowers in developing countries of Asia and Latin America doubled, to \$84 billion, the largest rise ever recorded.

Issues of bonds alone soared to \$46 billion from \$14 billion in 1992. Latin American issuers Developing commission also raised \$5.5 billion through may again be major Especially notable, the report

the sale of equities, while Asian issues amounted to \$4.6 billion. horrowers in 1994. said, was the large number of developing commiss as well as the broadening of categories of

borrowers and instruments used to raise funds.

With improved credit ratings and favorable growth prospects

for many of these countries, there seems to be a solid foundation for expecting the maintenance, and possibly a further strengthening, of a high level of developing countries international borrowing in

Corporate demand for funds this year is expected to be strong. especially as a "significant volume" of existing debt is scheduled to mature. But if major stock markets continue to perform strongly, the secretariat said it expected nonfinancial companies to primarily

rely on mixing equity.

If realized, this could lead to a further decline in the amount of bonded debt of the private nonlinancial sector, which last year fell to \$624 billion from \$629 billion because of a heavy schedule of

Banks and other imancial institutions are seen remaining a major source of demand for funds this year, particularly using floating

rate notes that qualify as capital for regulatory purposes.

However, the secretarial said it expected borrowing by governments to decline. Last year's total of \$104 billion, up from \$64 billion in 1992, was bloated by "extraordinary needs to replenish

foreign-exchange reserves." The supply of capital this year should also remain ample, the report observed. The growing role of large institutional investors taking a global view on investment opportunities will continue to support the process of asset diversification. The introduction of new instruments, the improved liquidity of several markets for international securities, and the emergence of new market compartments should provide investors with additional international out-

France **Defends** Fish Rule

U.S. Warns Paris Of Retaliation

Compiled by Our Staff From Disperches PARIS — France on Sunday de-fended its controls on fish imports after its trade partners, including the United States, protested that French practices were in line with world trade rules and prevented

"Once they are aware of the gravity of some of the fraud, no country will question these mea-sures," said Jean Puech, the Minister of Agriculture and Fisheries.

A ministry official said French customs had destroyed an unspeci-fied amount of burbot from the United States. He added that the shipments of burbot, a freshwater fish of the cod family, had contained a chemical substance that is used to retain water in products such as ham, meat and fish and that is illegal in France.

"It's fraud," said the official. "A U.S. trader was caught red-handed. We're allowed to do these checks and will continue to do them. U.S. exporters will go along with them if they want to do trade."

France started strict controls on fish imports on Feb. 3 in an effort to appease its fishermen, who have been frustrated by falling prices and cheap foreign imports. The move, which led French cus-

toms to reject large shipments of fish at the border, raised strong protests from some of its non-European trade partners.
Washington had threatened Fri-

day to retaliate against French soap or perfume as a result of the dispute on fish.

This unwarranted harassment has caused millions of dollars in losses to U.S. exporters and fishermen," several U.S. members of congress wrote in a letter to Mr.

■ Questions About CAP

A report recommending that the European Union's controversial farm subsidies policy be scrapped has been deliberately suppressed by aides to the European Commission president, Jacques Delors, according to a report in the Sunday Telegraph, Agence France-Presse reported from Brussels.

Among its findings, the report said that there was "no longer any economic or social justification for Policy" and that the "present struc-CAP should be broken up."

VW Experiment Alters Work Ethic

By Brandon Mitchener International Retail Tribine

SALZGITTER, Germany — It is 9 o'clock Friday morning and Ulf Borner, a heavymachinery operator at the local Volkswagen AG motor factory, shows up at his brother's house ready to work - renovating. The two previous Fridays be wallpapered a room at home and went swimming with his two chil-

Since the start of the year, Freitag, which sounds suspiciously like "free day" in German, has lived up to its name for 8,000 VW employces in Salzgitter who are the first subjects in the automaker's ambitious economic and social experiment in saving jobs by reducing work schedules and pay in proportion.

A four-day workweek for some and a shorter working day for others, the model is slowly spreading to include 100,000 workers at all six of VW's domestic manufacturing plants. In the process, it is radically changing the way Germans think about work and leisure. Peter Hartz, the VW labor director who

devised the emergency plan, calls it an alternative other German and European manufacturers would do well to consider before resorting to layoffs. "We've been saving money since lan. 1," he said. "That means it works."

Indeed, while many in government and business continue to denounce the VW model as a short-term solution that will probably backfure, those whose jobs the plan has saved say the immediate benefit outweighs the eventual risk.

"We're all a bit skepócal, but we knew something had to be done," said Mr. Börner,

39. "We're not doing this for our health, we're doing it because the antomobile industry is in

Roland Schmidt, a member of the workers' council at the Salzgitter factory, said he en-

joys shooping without stress. "It's less her-ne," he said. "You don't buy more, but you can shop more decisively." He has also used week went into effect, cautious spending by can shop more decisively." He has also used week went into effect, cautious spending by one free Friday to spend a long weekend in employees at VW — one of only two large Bavaria and is looking for a school that offers local employers — has already led local shops once-a-week classes in English. Texpect peo-ple who live with this system for two years will learn to love it," he said.

A travel office said p

Others are simply staying home, spending more time with their families. "Free time costs money," said Mehmet Kulak, a Turkish worker with two children who has worked at VW

Roland Schmidt, member of VW workers' conneil.

since 1980. "I have to watch that I don't spend too much on entertainment. We haven't noticed it yet, but we are earning less money." The financial wizardry of the VW model is such that monthly incomes were left un-touched. The pinch will not come until August and December, when traditional holiday and

Christmas shopping bonuses fail to appear. Moreover, VW workers have been traditionally better paid than most German metalworkers and will still earn up to 40 percent more than some colleagues even after the pay out that accompanies the 20 percent work reduc-tion. Mr. Kulak, who said loss of income will total around 8,000 Deutsche marks (\$4,650) a year, said that is a small price to pay for job security and a higher quality of life.

While the Salzgitter community college,

A travel office said people are booking shorter trips on shorter notice. Frank Weber, a dance instructor at Tanzschule Kwiatkowski, reported a sharp drop in attendance. We thought more people would sign up because their Fridays are free, but the opposite is true," he said. "People think two or three times before they spend money now."

He noted that the new lack of interest was roughly in proportion to past participation by VW workers, about 25 percent.

In Wolfsburg, 30 kilometers (18 miles) away, the impact will be greater because half the city's population of 100,000 works for VW and the rest are directly or indirectly dependent on the automaker's health.

The pulse of the city has already changed. Many people are waking up later because the VW early shift now starts at 7 A.M. instead of 5:30 A.M., while others get home earlier, less tired, and have time to go into town before the sun sets.

Stephan Krull, a member of the workers' council in Wolfsburg, said the VW model's emphasis on employment helps the city be-cause its bill for jobless benefits will be lower. It is better to have thousands of people lose income than lose their jobs, he argued.

He also emphasized the relatively high level of VW wages. "Nobody will go hungry and oo one will lose the roof over their head," he said. "There is no state of emergency at VW

U.S. Tells G-7 Jobs Are Key

But Bentsen Says Worst of Slump Is 'Behind Us'

By Brandon Mitchener

International Herald Tribune
FRANKFURT — Two weeks ahead of a high-profile jobs summit to be hosted by U.S. President Bill Clinton in Detroit, the United States is increasing pressure on Ja-pan and Western Europe, laggards along the path of global economic growth and job creation, to remove trade barriers, stimulate domestic consumption, cut interest rates and make their labor markets more

Finance officials and central bankers from the world's richest industrialized countries agreed Saturday after meeting oear Frankfurt to pursue policies that favored joh creation. But they also said unem-ployment, which lags growth everywhere, continued to defy quick so-

The group also urged Russia to make good on its promises of economic reform in exchange for continued Western financial support.

"There was a general sense that the worst of the recent downturn is behind us," said U.S. Treasury Sec-retary Lloyd Bentsen. But unemployment throughout the group — which includes the United States, Japan, Germany, Canada, Britain, Italy and France — remains "unac-ceptably high." be said, suggesting strongly that Europe and Japan were not doing all they could.

The United States boasts one of the group's most buoyant recoveries, while Japan and Germany, the world's second- and third-largest economies, are among its most

Unemployment, the main focus of a meeting scheduled for March 14 and 15 in Detroit, permeated the Saturday discussions on broader issues ranging from global trade to Western aid to Russia.

A U.S. official said Mr. Bentsen told his Japanese counterpart, Fi-nance Minister Hirohisa Fujii, that the United States had "very real concerns" that Japan was not living up to its commitment to promote strengthened domestic demand and significantly boost imports to reduce its stubbornly high surplus-

The official stressed that the United States remained "very concerned" about Japan's position Trade tensions between the two countries have contributed to a steep rise in the yen against the dollar.

But Japan scored a partial victory in averting official calls for a stronger yen, which would drive up the price of Japanese exports and make imported goods cheaper. Mr. Fujii, in a press conference upon his return to Japan, said he had managed to convince other countries that a further steep appreciation of the yen would delay rather than accelerate economic growth.

Without singling out the Bundesbank, Mr. Bentsen urged European countries to lower their interest rates to stimulate their economies. "Given the progress Europe has made on inflation, we believe the authorities should take advantage of any opportunities to reduce in-terest rates," he said.

Hans Tietmeyer, president of the Bundesbank, which effectively dictates interest rates throughout the 12-nacon European Union, said there was no new criticism of Germany's policy of slow, cautious in-terest rate reductions. "We all said we would like lower rates when there is room for it," he said.

Much of the weekend was devoted to meetings with Russian officials, who pledged to continue eco-nomic reforms and bring inflation down from more than 20 percent a month to a range of 7 to 9 percent a month by the end of the year.

A Tumble on Ice By Michael Richardson New York Times Service NEW YORK —At 4:16 P.M. on Friday, the 35,000 electronic monirinday, the 15,000 electronic moni-tors that supply Bloomberg Bus-ness News services and securities prices to subscribers ground to a from an uncomfortable operation in 1978. On a trip through Asia and Africa to

just as final stock and bond prices were being reported in New York. The problem: Thousands of subscribers were trying to read the report disclosing that Oksana Baiul of Ukraine, who had been injured in an on-ice collision on Wednesday, had narrowly defeated Nancy Kerrigan in the race for a gold medal figure skating.

momentary halt at a critical time-

"If everybody types the same function at the same moment, you will have gridlock," said Matthew Winkler, editor-in-chief of Bloomberg. The disruption in service lasted only a few minutes, be said.

The first headline summary of the Lorena Bobbitt case had caused system gridlock lasting 30 to 40 minutes. "After that happened, we did a big autopsy," said Mr.

largest range of Australian tea tree oil products. He is chairman of the company. International Bernid Tribune
BALLINA, Australia — Christopher
Dean was first convinced of the healing The concern has its headquarters just outside Ballina, a town about 800 kilomeproperties of tea tree oil when it saved him ters (500 miles) north of Sydney on the Pacific coast of Australia.

The ten tree (melaleuca alternifolia) is native to Australia and indigenous to the swamps along the coast on either side of Ballina. Oil distilled from the leaves is in increasing demand around the world as a natural fungicide, antibiotic and healing agent that can penetrate the skin and mucous membranes without causing imitation. Sales by the company of tea tree oil, and

products such as soap, sunblock, mouthwash and anti-perspirant that contain the oil, amounted to nearly 6.3 million Australian dollars (\$4.5 million) in 1993. Sales are expected to reach about 9 million dollars this year, up from 160,000 dollars in 1989. While health product shops, pharmacies, grocery stores and supermarkets in

of the company's turnover in 1993, the United States, Britain, New Zealand, Canada and other overseas markets are becoming increasingly large buyers.

Thursday Plantation has been among

Australia accounted for about 75 percent

the 50 fastest-growing private companies in Australia in each of the last five years. It oow employs 35 people at its Ballina headquarters, eight in its U.S. office in Santa Barbara, California, which Michael Dean heads, and three in Sydney.

Tea tree oil, which has a notineg odor, has a long history of use in Australia as a powerful natural antiseptic and cure for common ailments. Australian aborigines applied tea tree leaves to wounds and Australian soldiers in World War II were

given the oil as a disinfectant. The proliferation of synthetic medicines after 1945 crippled the Australian tea tree oil industry.

Field research by Mr. Dean's step-fa-ther, Eric White, which showed how the trees could be grown in tree farms, and a strong swing back to natural medicines and products in many countries in recent years, have helped revive the business.

Lyall R. Williams, professor of chemistry at Macquarie University in Sydney, said that that this worldwide swing was "in response to the ever increasing incidence of allergic reactions, adverse side effects and the buildup of resistance by pathogenic organisms to synthetic disinfectants, germicides and antibiotics." He said that plantation production of the tea tree opened the door to guaranteed supplies of oil of uniform quality.

Mr. Dean, an anthropology graduate from Sydney University, said although the name of the company might suggest that it was chiefly a plantation producer of tea tree oil, its main focus over the past decade had been on developing value-added prod-ucts, effective marketing and distribution networks, and brand recognition.

For example, the firm has developed its own Thursday Plantation range of products for the U.S. including toothpaste. lozenges, mouth wash, breath freshener and toothoicks.

Peter Dean, a brother of Christopher and director of international marketing at Thursday Plantation, said that although output of Australian tea tree oil might nearly double in the next three years to about 200 tons annually, there would still not be enough to meet global demand.

THE GERMAN PFANDBRIEF

THEGROUND VALUE FROM

The last thing many investors want is to get adventurous about current fads and exotic markets. If safety, yield, a stable currency and long-term value are your priorities, consider Germany's Pfandbrief system. Pfandbriefe in Germany are bonds issued to refinance mortgages or public loans, a time-tested idea that dates back more than two centuries. In line with the Mortgage Bank Act of 1900, these bonds

are secured by mortgages or by public-

sector loans. They must carry backing of separate funds with at least matching yields and maturities. And all Pfandbrief issues are monitored by a stateappointed trustee.

The bottom line on safety? No investor has ever failed to receive 100 % repayment on a

German Pfandbrief held to maturity.

The legal framework surrounding Pfandbriefe has an unsurpassed record for

endurance, offering investors a fixed-interest D-Mark instrument of quality - plus yields generally higher than German Treasury bonds (Bunds). Sound reasons why Pfandbriefe, at nearly DM 1 trillion at year-end 1993, amounted to 40 % of Germany's entire bond market.

German Pfandbriefe are officially quoted on German stock exchanges. Issuers actively maintain a well-functioning secondary

Manufacturers' orders for machine tools rose 8 percent in January over the previous month, extending 1993's gains and signaling brisk investment in U.S. manufacturing.

The Association for Manufacturing Technology reported Sunday that machine tool orders rose to \$356.05 million in January from \$330.35 million in December. Compared to the like month a year earlier, orders more than doubled from \$175.55 million. "January's orders agoal continued reinvestment by the U.S. in manufacturing, which is essential to our long-term economic health," said Albert W. Moore, the association's president.

Machine tool shipments totaled \$222.20 million, down 45 percent from the "very strong" \$404.35 million logged in December, the association said. Compared with January a year ago, shipments were off 10.73 percent from \$248.9 million. The rise in machine tool consumption in 1993 reversed three years of declines. Consumption is forecast to rise in 1994 and 1995 as well, the association said. In 1993, U.S. consumption 1995 topped that of Germany and Japan for the first time since 1986.

Although domestic orders are rising, foreign orders are falling. New domestic orders rose 18 percent in January, to \$345.15 million. But export orders fell 70.26 percent, to \$10.9 million.

Italy Sets Comit Share Price

MIIAN, Italy (AP) — Italy set a share price Saturday of 5,400 lire (\$3.21) for the Banca Commerciale Italiana, the second major state-

owned bank to be sold to private investors.

owned bank to be sout to private investors.

The price, which applies to individual and institutional investors, reflects a discount of 8.5 percent from Friday's closing price of 5.904 lire.

The public offering is set to begin Monday with a minimum of 200 million shares reserved for individual shareholders. The remaining 280 million shares are set aside for institutional investors and current and

The state-ren Istituto per la Ricostruzione Industriale, or IRI, which owns 54 percent of the bank, is in the process of selling off many of its major holdings to raise cash for the deficit-troubled government.

Smith Unit Seen Linking With Virgin

LONDON (Bloomberg) — W.H. Smith Group PLC is planning to merge its record chain Our Price with Virgin Group PLCs retail business to create Britain's largest recorded music retail store chain. The Observer reported. According to the newspaper, Smith will transfer 305 Our Price stores to Virgin Retail, its 50-50 joint venture with Virgin, in return for increasing its stake in the venture to 75 percent. Nn cash is expected to change hands, the paper said, although the chain will become "debt-free."

Rover Cash Hoard Cuts Selling Price

LONDON (Bloomberg) — Germany's Bayerische Motoren Werke AG is expected to pay one third less than was originally thought in order to acquire control of Rover Group PLC from British Acrospace PLC, because Rover has 271 million pounds in cash reserves which BMW will take over, reducing its purchase price accordingly, the Sunday Times reported.

Green Buys Successor to Drexel

NEW YORK (AP) — Green Capital Investors LP, an Atlanta investment partnership, has completed its purchase of New Street Capital Corp., heir to the defunct Wall Street firm of Drexel Burnham Lambert Inc. Green Capital Investors LP, is controlled by Holcombe T. Green, Jr. chairman of Westpoint Stevens Inc., a major producer of sheets and towels. New Street held about 22 percent of Westpoint's stock.

In the complex transaction, announced in December, New Street liquidated part of its investments, and used \$411 million of the proceeds. to retire two-thirds of its stock. Green Capital paid about \$174 million in cash and \$35 million in secured short-term notes for the rest of the stock. may also be tested."

of asset management." Last year's creasing the existing stock of out-standing debt to \$1.847 trillion. While the dollar remained the most-used currency for new issues, the report noted impressive increases of more than 100 percent in the use of sterling, the Canadian dollar and the peseta, as well as substantial increases in the use of the Italian lira, French franc and

Deutsche mark. Sales of commercial paper rose to \$36.6 billion. Medium-term notes rose \$114 billion, an increase of a mere 15 percent, compared with the doubling of activity recorded in the prior two years. This slowdown suggests that "this sector may be moving into a phase of 'maturity,' with the value of pro-grams in place approaching a level large enough for meeting borrow-ers' immediate needs," the report

In all, \$41 billion was raised through the sale of equities. In addition, \$130 billion was raised in the syndicated loan market. However, most of that was refinancing and new lending was estimated at only \$70 billion — the lowest since

In a special section, the report vate capital continue to flow into the so-called emerging markets in Asia and Latin America. While observing that these flows "seem more soundly based than the bank lending boom of the 1970s and ear-ly 1980s," the report highlighted

various risks. It fretted that investment managers might be pursuing aggressive asset growth at the expense of careful examination of risks and it was concerned that huge inflows may undermine domestic monetary control while outflows, when and if they occur, could have equally un-

favorable consequences. So far, things have worked well "but only in a generally improving investment climate." It noted that "the system has yet to be tested in a worsening environment." The "relative immaturity of domestic financial systems could be a point of particular vulnerability" and "in cases where major speculative pres-sures arise, the prudential sound-ness of domestic banking systems

More Firms On Block

NEW DELHI - India plans shortly to begin a new round of privatization, selling off shares of several major state-owned companies while retaining overall government control in the enterprises, officials said on Sunday.

The government said last year it

hoped to raise 35 billion rupees (\$1.13 billion) by selling the shares. Officials said the government would put part of the equity of seven major state-owned companies on the block before March 31, when the current fiscal year ends. The seven include the country's largest steel maker, the Steel Au-

thority of India, along with Hindustan Petroleum, Bharat Heavy Electricals Ltd., Hindustan Ma-chine Tools Ltd., Bharat Petroleum, Hindustan Zinc Ltd. and Bharat Earth Movers Ltd.

A finance ministry official said the government was divided on how to value shares, and worried that divestment was geared more to cover the government's budget del-icat than changing the culture of the state-owned companies and preparing them to meet competition.

Since launching economic re-forms in 1991, India has moved slowly to shed part of its holdings in 237 state-owned firms, 104 of which lost money in 1992-93. It last sold shares in state-owned firms in 1992, raising 49.5 billion

rupees, according to an economic

survey released last week. Officials said the shares will be sold at auction open to all mutual funds, fureign financial institutions, brokers and finance companies registered with the Securities and Exchange Board of India.

The decisinn to auction the shares was made despite a debate within the government about the type of companies which it should shed, and which ones it should contimue to finance, officials said.

"There is a debate," one official said. "It is whether the government's budgetary support to pubquoed,

The finance ministry says com-panies that are doing well and able to raise funds from the market should be encouraged to dn so.

India to Put Bond Markets Still Wary of Rising Rates Knight-Rodder NEW YORK — The U.S. Treasury market is me it's likely to get more overdone," said Dana

expected to remaio under pressure this week as participants continue to adjust to the notion that interest rates are heading higher. The 30-year bond lost more than a point last

week, after having dropped almost 3 points the week before.

The bond market has been in a tailsnin since the Federal Reserve Board pushed up the leder-

U.S. CREDIT MARKETS

al funds overnight interbank loan rate by 25 basis points on Feb. 4, the first tightening in five years. The Fed's move left the short end of the market waiting for another rate rise while it fueled inflationary fears at the long end.

Technical indicators have begun to signal that the bond market has fallen too far, but analysts said sentiment was so negative that few investors are likely to have the courage to come in and buy. "I start from the perspective that the market's already overdone, but it seems to

Johnson, chief of market analysis at the First National Bank nl Chicago.

Kevin Logan, chief economist at Swiss Bank Corp., said he expected prices in go lower, especially at the long end of the market, because investors remain confused about how soon and how often the Fed plans to tighten monetary policy.

"Until that confusion is cleared up, even at these levels 1 don't think we'll see people willing in step up and buy very much," he said.

In the meantime, the uncertainty will lead to additional selling by nervous investors, and that selling will push the market lawer in the absence of any willing buyers, he said. Mr. Logan said the short end of the market

may do better than the long end because shortterm securities already have priced in the next Fed tightening. "There may be people willing to nibble at these levels," he said.

Mr. Johnson said reports that could trigger additional losses next week include the U.S.

purchasing managers' index for February and revisions to the U.S. fourth-quarter gross do-mestic product, both scheduled for release on Tuesday, and the February U.S. employment

report, expected on Friday... The Treasury market took a numble last week when the Federal Reserve Bank of Philadelphia wrote in its February report that local manufacturing activity had showed a big increase in prices, and Mr. Johnson expected more price

index for February. But Donald E. Maude, chief U.S. fixed-income strategist at Scotia McLeod, said the price components of both the Chicago and national purchasing managers' indexes should steady in February following big gains posted in January.

increases to show up in the national purchasing

Fourth-quarter output is expected to be revised up from the 5.9 percent gain reported last month, with analysts widely forecasting a revi-sion to a 6.8 percent jump. But traders said that the higher fourth-quarter number was already accounted for io current bond prices.

catastrophe has been averted, but Inr those left outside, the perspec-tive is bleak," said Antonio Lo Chiatto, head of the Wolfsburg branch office of an Italian Catholic workers union. Mr. Lo Chiatto, who has an ear to the large Italian community in town, said foreigners, women and "others in a weak posinon" were being offered financial and psychological incentives to

leave the company. Rinaldo Carta, who sells VW cars to company employees, said VW is determined to cut its payroll despite its promise to defer layoffs. "There's no way of insuring that they maintain those 30,000 jobs, he said, citing the oumber VW said its plan would save nationwide.

Germany Braces for Strikes

FRANKFURT — Germany, struggling to emerge from recession, faced fresh murest on the labor front on Monday when public service workers were expected to begin token strikes. Mass walkouts by staff in the metal-working industry in recent weeks

over pay and benefits have dented hopes of recovery and now the main public-service unions, the OeTV and DAG, plan to call workers out in short stoppages for similar reasons.

The OeTV, which in 1992 caused hardship with an 11-day strike, said all public services "from waste collection to administration" would be

disrupted this week. Small-scale action among postal workers began on Saturday.

The public workers' protests begin just as a four-week campaign of much larger stoppages organized by IG Metall, Germany's largest union, seemed set to become a full-blown strike.

About 100,000 workers in the northern state of Lower Saxony are being asked to vote this week on the strike call. If a majority favors action, a strike could start on March 7.

We are going on the offensive to prevent cuts in wages and a ning in working hours," said Monika Wnlf-Mathies, president of OeTV, after a third round of pay talks with employers on Friday brought

Cal's Title Shot Fades With OT Loss to USC

Southern Cal's overtime victory over No. 17 California probably cost the Golden Bears a chance at the Pac-10 championship.

Bul Coach Todd Bozeman does not think it's the end of the world. "The loss won't kill our season

COLLEGE BASKETBALL

because we're playing for a bigger picture, a bigger prize," Bozeman said, looking toward the National Collegiate Athletic Association tournament. "We're just going to use it as a learning experience. The loss shouldn't ruin our season."

Burt Harris hit a 3-pointer as regulation time expired to tie the game and the Trojans scored to straight points late in OT to earn the 86-78 victory in Los Angeles. The Trojans, who had lost nine of their previous 11 games, trailed by as many as 15 points in the

second half before coming back. The victory prevented Cal from keeping pace with No. 9 Arizona and No. 15 UCLA in the Pac-10. Cal (19-6, t0-4 Pac-10) led 55-41 wheo Tremayne Anchrum made a three-point play with seven min-

utes left in the second half. The closer but Wesley Person's baseline play triggered a 10-0 Southern Cal jumper was short. run in a span of 1:57 to draw the Trojans within four points.

Cal's Jason Kidd made six free throws without a miss in the final 1:04 to keep the Golden Bears ahead. The last two came with 8.5 seconds remaioing, giving Cal a 69-

Harris, who made a career-high six 3-point shots and scored a ca-reer-high 23 points, then dribbled the ball downcoun and unloaded from about 30 feet to tie the game at 69-69 and force the overtime. A 3-point shot by Anwar

McQueen with 2:43 left in overtime put Cal ahead 75-74, but the Trojans (13-11, 6-9) scored the next 10 points to clinch the victory. No. 1 Arkansas 91, Auburn 81: In Fayetteville, Arkansas, Corey Beck

and Cliot McDaniel each made two free throws down the stretch as Arkansas won its 10th straight. Arkansas (22-2, 12-2 Southeastern Conference) led by as many as 15 early in the second half, but Lance Weems's 3-pointer cut it to

83-77 with 2:19 to play. The Tigers

(10-14, 3-11) bad a chance to get

1:23 left that helped secure the victory over pesky Florida State (12-13, 5-10) in Chapel Hill, North Carolina North Carolina (23-5, 10-4 Atlantic Coast Conference) moved within one-half game of No. 2 Duke in the race for the league's top seed with one week teft in the regular season. The two meet

in Durham next weekend, No. 5 Connecticut 78, Pittsburgh 66: Connecticut (24-3, 14-2) used balanced scoring to beat visiting Pittsburgh (13-12, 7-10) and clinch its first Big East regular-season title.

No. 6 Missouri 99, Oklahoma 83: Reserve Mark Atkins tied his own school record with seven 3-pointers as Missouri (22-2, 12-0) clinched the Big Eight title at home Oklahoma

Big Eight title at home. Oklahoma (14-10, 5-7) kost its third straight. No. 9 Arizona 75, Oregon 71: Damon Stoudamire scored 21 scare by the Ducks (9-14, 5-9).

No. 13 Louisville 85, Notre State (10-14, 4-7). Dame 82: Freshman DeJuan Wheat hit four straight free throws in the final 25 seconds of regulation, then came up with two steals in the closing seconds of OT as Louisville (22-4) stopped the Irish (10-17) in South Bend, Indiana.

secutive points with the game on the line and finished with 30 to help Purdue (23-4, 11-4 Big Ten) beat visiting Penn State (11-12, 4-10). No. 15 UCLA 103, Stanford 88: in Los Angeles, Ed O'Bannon had 28 points and 19 rebounds as UCLA

for first in the Pac-10 with Arizona. Billy McCaffrey scored 31 points,

(19-4, 12-3 Pac-10) cruised past Stanford (14-9, 7-7) to remain tied

oser but Wesley Person's baseline
Imper was short.

No. 10 Kansas 106, Colorado 62:

SIDELINES

Jersey Joe Walcott, Boxer, Dies at 80

CAMDEN, New Jersey (NYT) - Jersey Joe Walcott, 80, the son of poor immigrants from Barbados who slugged his way out of poverty and into the record books as the oldest fighter to win the world heavyweight boxing championship, died Friday.
On July 18, 1951, Walcott, 37, knocked out Ezzard Charles — an

opponent who had already beaten Walcott twice - in the seventh round in Forbes Field in Pittsburgh to win the title.

Chinese Swimmer Banned for Drugs

Cooperstown by a reconstitut-ISTANBUL (AP) — The International Swimming Federation banned the Chinese swimmer Zhong Weiyue from international competition for two years and invalidated her 50-meter and 100-meter butterfly world ed veterans committee. ... Durocher, the manager known as "The Lip," died in 1991, Rizzuto was a five-time

records after she failed a drug test.
FINA said Saturday that Zhong had tested positive at the World Cup meet in Beging last month when she set the world records.

For the Record

Rattumpol Sor Vorspin of Thailand retained his IBF miniflyweight title with a unanimous decision over Ronnie Magramo of the Philippines in Pichit, Thailand.

Nigel Bean kept the WBC super-middleweight title with a unanimous decision over his fellow Briton Henry Wharton in London. (Readers)
Steve Little of the United States, who had not fought for 13 mooths,
stunned his compatriot Michael Nunn, winning the WBA super-middleweight title on a split points decision in London. Jorge Solari of Argentina has been hired to coach Saudi Arabia's World Cup-bound soccer team. · (AP)

Derrick Coleman signed a \$30 million, four-year contract with the New Jersey Nets, making him the highest-paid player in the National Baskethall Association

Fame Panel

Elects Rizzuto

And Durocher

The Associated Press

TAMPA, Florida - Leo

Durocher and Phil Rizzuto,

overlooked by baseball's Hall

of Fame for decades, finally

were elected for induction to

All-Star known as the "Scoot-

er" when he played shortstop for the New York Yankees in

the 1940s and 1950s.
Rizzulo, 76, bit .273 in 13
seasons with 38 homers and

562 RBIs, and was elected the

AL's 1950 MVP. He played

with 10 pennant winners and eight World Series champs.

Durocher was a teammate of

when he broke into the majors

Durocher led three pennant

winners: the 1941 Dodgers

and the 1951 and '54 Giants.

with the Yankees in 1925.

Overshadowed by Turner's retirement were the three new Olympie records, and the silver medal performance by the United States in the men's 5,000-meter relay. Eric was leaving the sport.

"I'm not having fun," said
Turner, who is 31. "This is supcosed to be fun I was leaving fun."

"I'm and all Bartz, John Coyle
and Andy Gabel provided the
United States with its 13th medal of these Olympics, a record total.

"There was oo controversy," said Flaim, a silver medalist in rom me." long-track skaring at the 1988 Win-Her announced renirement was ter Olympics in Calgary. "Nobody

He spoke as if he were surprised. True, it did seem rare that no one was disqualified or called a cheat. All week there had been had blood, especially among the Ameri-Committee, has expressed his con- can, Chinese and Canadian women

صكذاحت الأحطل

Turner found the ruling unfair — and retired from the sport.

the 3,000-meter relay, after which the Chinese women were disqualified and the Americans were awarded a bronze medal. Thursday night, Lambert called Turner dirty after Lambert clicked skates with Turner and fell in a preliminary round of the 500-meter race

Turner eventually won the gold medal, defending her 1992 Olym-pic oile, but only after the silver medalist, Zhang Yanmei of China. Olympics. complained that Turoer had lialy balance while passing. The Chinese delegation filed an official protest. Zhang stormed off the medal podi-um, took the medal from around her neck and threw down a bou-

quet of flowers. After that race, Turner discouered a venomous note from a Cana- set by South Korea in 1992. dian man in her electronic mail, she said. The message, displayed Satur-day night by Jack Mortell, the U.S. short-track team's leader, ended with this admonishment: "From all Canadians, go to hell."

3. Frederic Biockstein, Congot, 44.40; 4. Northe Johnneson, Sweden, 46.64; Nedt 3—1. North George, Chande, 44.64; 2. Nicholds Geoch, 8rth-oin, 44.60; 3. Lee Jun-Ha. South Korea, 45.97; 4. Turner, adding that she was an aggressive skater, not a dirty skater. This isn't good for the sport." Even Turner's opponents admit-ted that the infraction was minor.

but the referee apparently was in no mood for any chicanery.

"I think the referees thought they should be more severe tonight." Lambert said.

After the disqualification.
Turner said that the name-calling and protests represented "the wors) case of sportsmanship I've ever seen." Then she said she was leaving short-track racing. And some wondered whether short-track racing would soon be leaving the

complained that Turoer had lialy won the gold medal in the grabbed her leg and thrown ber off men's 5,000-meter short-track speed skating relay by setting an Olympic record of 7:11.81, The Associated Press reported.

The team comprising Maurizio Carnino, Orazio Fagone, Hugo Herrnhof and Mirko Vuillermin broke the previous mark of 7:14.02

The United States captured the silver in a time of 7:13.37, while Australia won its first Winter Olympics medal ever, the bronze, in 7:13.68.

Chun Lee Kyung of South Korea won the womeo's 1,000-meter short-track title with an Olympicrecord time of 1:36.87. The silver went to Nathalie Lambert of Canada in 1:36,97, while Kim So Hee of South Korea took the bronze in 1:37.09.

Kim had set the record that was broken, 1:37.17, in the semifinals. And Chae Ji Hoon of South Korea set an Olympic record of 43,45 for improperly cutting in front of a seconds to win the men's 500-meter South Korean skater, Kim So Hee. title. The silver went to Mirko Vuillermin of Italy in 43.47 seconds. Nicholas Gooch of Great Britain claimed the bronze with a time of 43.68.

The previous Olympic record of 44.01 seconds was set earlier in the Games by Bjornar Elgetun of Nor-

SPORTS WINTER OLYMPICS

Sweden Beats Canada in Shoot-Out for Hockey Gold

By Johnette Howard

Washington Post Service
LILLEHAMMER — There were breathless, end-to-end rushes, desperation comebacks and not a shred of surrender in either team, not even after the grueing overtime had come and gone.

By the time the sudden-death shoot-out arrived, Kenny Joensson of Sweden had skated off unsteadily after being knocked uncon-scious, Todd Hlusko of Canada had a wicked mark under one eye and teammate Greg Johnson was playing with a nasty line of knitted black stitches curling over the bridge of his nose like a centipede.

This was the curtain-closing event of the 17th Winter Games, one more rousing memory to heap atop the others made in Lillehammer over the last 16 days. Until Sunday, Sweden had never won the ice hockey gold medal at the Winter Olympics, and Canada, the cradle of the sport, had not won one in 42 years.

But somehow, rather than succumb to the pressure or wilt from desire, the two teams played a hockey game for the ages through 60 throat-constricting minutes of regulation, and the 10-minute overtime, and that heart-stop-ping shoot-out that was ended on the seventh go-round by a kid center named Peter Forsberg, who spends much of his time insisting that he'd rather pass than score.

With the crowd screaming as he took the puck at center ice, Forsberg came bearing down on Canadian goalie Corey Hirsch until, near the goal crease, he hesitated with the puck on his stick for what felt like an interminable about of

Hirsch finally flinched first when it seemed only four feet or so separated the two men. And Forsberg — stickbandling the puck right, then left, then right again — slid an agonizingly slow hackband shot along the ice, just under Hirsch's glove just a millisecond before the glove hit ice.

I thought I had it," Hirsch said. When 19-year-old Canadian Paul Kariya could not answer Forsberg's challenge - floating a shot toward the high right corner that Swedish goalie Tommy Salo slapped out of the air with his glove — Sweden had its first-ever Olympic gold. 3-2, and Canada settled for the silver medal for the second time in the last two Olympic Games.

For Canada, picked to finish as low as seventh by some folks back home, the loss was especially disappointing because victory looked assured in regulation.

After failing to dent Sweden's Salo through the first 50 minutes of regulation, the Canadians scored twice in three minutes on screaming slapshots by Kariya, then Derek Mayer, to seize a 2-1 lead with 8:17 remaining. The margin still looked good until defenseman Brad Werenka leveled former NHL star Mats Nashund in front of the net, then threw back his head and winced in horror when referee's right arm went up

signaling a penalty with 2:10 to play.

Sweden needed just 21 seconds to score.

Defenseman Magnus Svensson took the puck in the middle of the blue line and Hirsch —screened completely by a four-man scrum in front of the net — had no chance to see, let alone stop, the bullet that Svensson rifled by his right elbow and snapped back the back of the

"I couldn't believe it," Nashund said, still smiling two hours after the game. "When they scored to make it 2-1, it looked pretty hopeless. I didn't think we were going to get a power-play chance. I didn't think the referee was going to

call anything."

The overtime was much like regulation, with the Swedes running their breathtaking, pat-terned offense that relies on pinpoint passing and some striking stickhandling and skating, and the Canadians playing their grinding, board-crashing, dump-and-chase game. Both sides had chances to score. In one sequence after European granted in and missed

sequence, after Forsberg roared in and missed wide right, Kariya took the puck end-to-end and blasted a shot that got by Salo but went just to the left of the net.

From there it was on to the shoot-out — five designated shooters from each team taking turns shooting penalty shot attempts at the other's goalie. If score is still tied after that —as it was at 2-2 - the shoot-out becomes sudden death and the team that scores the first manswered goal wins.

When the sudden-death format kicked in, Forsberg got his second chance. It worked.

Finland 4, Russia 0: Finland won the bronze medal with its second shutout of Russia. It was the first time in its 11 Olympics that Russia and its predecessors - the Soviet Union and Unified Team - failed to win a medal. None of those teams had been shut out until Finland blanked the Russians in the second

preliminary-round game. Finland's only previous medal was a silver in

Peter Forsberg of Sweden slipping the puck past Canada's Corey Hirsch in the penalty shoot-out for the winning goal in Sunday's final.

showdown between the Czech Republic and Slovakia since they split apart 14 months ago, and the Czechs capitalized on defensive lapses to rout their former countrymen for fifth place. The Slovaks jumped into the lead at 2:21 of

Czech Republic 7, Slovakia I: It was the first period on Miroslav Satan's ninth goal capped its worst Olympic hockey tournament of the Olympics. But the Slovak defense then lovakia since they split apart 14 months ago. The United States (1-4-3) had never done goals by the Czechs between 9:33 and 18:43.

The United States (1-4-3) had never done worse than seventh. Germany (4-4-0) beat the United States for the first time in eight Olympic

GAMES: Athletes Think Payday

Jansen's gold medal victory in the 1,000 meters: Norwegians shouted encouraging cheers to a Japanese skier even though he was beating one of their own. An exhausted Manuela Di Centa of Italy was lifted out of the snow by Finland's Marja-Liisa Kirvesniemi, the woman she trounced in the grueling 30-kilometer cross-

But if the old jingoism is waning, the new materialism is gaining ground. Olympic ath-letes, at times, seem to compete less for their flag than for their share in the marketplace. A victory can reap a cornucopia of cash bonuses and endorsements that, even for medalists in minor sports, can easily surpass a million dol-

Nowhere is the transition toward big money more evident than among the Russians. Once the pampered scions of the Soviet sports empire, Russian athletes and their mentors now must struggle to raise the cash they need to maintain their single-minded devotion to their

Sergei Grinkov, who won the gold medal with Ekaterina Gordeeva in pairs figure skating, says money has become an obsession for many athletes because standards are so high that only those who can devote themselves on a full-time basis to preparing for the Games can hope to

"If you want to skate for a gold medal, you cannot have another life," Grinkov said. "There is no time to pursue your studies or prepare for

Many athletes from the former Soviet Union have chosen to live abroad, where training conditions are better and endorsement possibilities greater. The Ukrainian figure skater Victor Petrenko spends most of his time in the United States; the pole vaulter Sergei Bubka resides in Germany and says he is moving to France, Kazakhstan's Vladimir Smirnov, a cross-country skier who was born in Siberia, is preparing to adopt Swedish nationality.

Unlike them, Grinkov says he has no plans to move abroad. Even if Moscow's streets are no longer as safe as they used to be, and athletes are tempting targets for criminals seeking a cut of their foreign currency earnings, Grinkov says he cannot bear the thought of abandoning his native capital.

"We get lots of offers to live and train in Europe and the United States, but I feel really comfortable in Moscow," he said. "I just make a

point of not keeping my money there."
But Grinkov says he will strive to build on his global celebrity through professional tours after the Games. His gold medal helped secure a contract with the ice-skating impresario Tom Collins for 65 appearances across the United

Vitali Smirnov, the head of Russia's Olympic Committee, says he welcomes the fact that "there is a lot more emphasis in the Olympics these days on business rather than nationalism

With the government budget so stretched that the once-powerful Sports Ministry has been abolished, raising money has become a

major preoccupation in Russia.

Smirnov says that thanks to Recbok's generous sponsorship, an Olympic lottery and shops selling \$20,000 a day worth of Olympic para-phernalia, the Russians managed to send an impressive team that —against the odds —wou the largest number of gold medals.

important for Russians - independence from government control," Smirnov said. "We are learning to survive in the marketplace so that we do not have to rely any more on the central government to give us money and tell us what to

Even though they may not draw the befty endorsements earned by their U.S. peers, Rus-sia's athletes were awarded a \$15,000 check from their Olympic committee - the same as for U.S. athletes - for every gold medal.

Smirnov believes the gradual takeover of the Olympics by professional athletes is a healthy

People today are interested in seeing the best athletes in the world, regardless of where he or she comes from, "Smirnov said. "The return of professional figure skaters is good for the spectators and the sport. Having the American Dream Team play basketball in the Barcelona Games

made the sport more popular than ever."

The global celebrity of the athletes has become a critical dimension of the Olympic marketing phenomenon. Even before the Harding-Kerrigan controversy boosted viewer interest, the Winter Games were assured of success be-cause a record 100 nations agreed to televise the Olympics for a cumulative audience of 10 bil-

lion people.
In dedicating the Lillehammer Games to the memory of Sarajevo, the besieged Bosnian capital, 10 years after it was host of the Games, the International Olympic Committee's president, Juan Antonio Samaranch, said he wanted to instill real meaning into the ancient Greek no-

tion of an Olympie truce.
The end of the Cold War may have curtailed political exploitation of the Olympics, but it has not made the world a safer place. Nobody knows it better than the nine athletes from Bosnia-Herzegovina, who risked sniper fire and other perils to get to the Games. Even though they won no medals, earned no money and have no hopes of becoming rich through endorse-ments, the Bosnian athletes have cherished their stay in this oasis of brotherhood perhaps more than anyone else.

"Just having a couple of weeks to enjoy peaceful surroundings in the company of the world's best athletes is a victory in itself," said Izet Baracic, a 28-year-old Bossian bobsledder. "Even if it is something of an illusion,"

Smirnov Captures 50K Cross-Country For Kazakhstan "I have raced 50 times the 50

New York Times Service
LILLEHAMMER — They had been on their feet for the last fort- ally after 42 or 43 kilometers, I start night, cheering and ignoring the clements, and the final day of their surprise today was that I never had very wintry Olympics was no ex- any problems, and the biggest sur-

More than 15,000 Norwegians spent the previous night in tents near the Birkebeineren Ski Stadium, and more than 100,000 were in full voice Sunday for the marathon of cross-country skiing, the men's 50-kilometer classical race.

But by the time the final Nordie event of these Games came to an end in this Nordic nation, the crowd was no longer relying on its

lilting language.
Instead, the Norwegians were channing a single Slavic name: 'Smirnov, Smirnov, Smirnov,

Smirnov. After a decade of near misses, after expatriation, acclimatization and a lot of perspiration, Vladimir Smirnov of Kazakhstan finally had won his Olympic gold medal. Smirnov and Scandinavia could

not have been happier. "This has been a dream of mine for many years," said the 29-yearold Smirnov, who was born in the Soviet Union but has lived in

Sundsvall, Sweden, since 1991. Smirnov's victory came at the expense of Mika Myllylae of Finland, who took the silver medal, and Sture Sivertson of Norway, who took the bronze. It also came at the expense of Smirnov's Norwegian friends Bjorn Daehlie and Vegard Ulvang, who finished fourth

"I am disappointed for myself, but the best thing about today is that Vladimir finally did it," said Ulvang, a triple Olympic gold medalist in Albertville two years ago who managed only one silver medal

Smirnov, the World Cup leader coming into Lillehammer, already had won a silver medal in the 10kilometer classical and in the comhined pursuit. He also had two silvers and a bronze from the 1988 Winter Olympics in Calgary. But until Sunday, his only major title had come in the 30-kilometer race at the 1989 World Championships.

The truth is that he never expectthrough at this distance

kilometers, but I have never had this kind of result," be said, "Usuprise of all is that I got the gold medal.

before the race to wish me luck in the 50 kilometers," Smirnov said. "I felt the Norwegian people were behind me today.

three weeks climbing mountains and riding horses with him in the

wilds of Mongolia last summer. The two skiers first met at the World Junior Championships in 1982 but were unable to develop a friendship until Smirnov left the

"You could tell he wanted to talk before, but it just wasn't possible because of politics," Ulvang said. "But you become really close on trips like we have made. He told me all about the old system, the Soviet system. He was a captain in the Red Army, but what was strange is that we had some shotguns to shoot birds, and Vladimir had never seen a gun before. He had no idea which way to even point it. I guess he was more skier than soldier in the

He is, however, the first Olympic gold medalist in the history of Ka-

"I don't really know what goes on there," he said. "I rarely talk to our Olympic committee, but I received a telegram from the president of Kazakhstan today. It was the first telegram in my life that I ever got from a president."

He probably never had received a compliment from a prime minister, either, but that was exactly what Smirnov got from Norway's Gro Harlem Brundtland, who expressed what many of the thousands of people along the course were feeling as they chanted that once unfamiliar name.

"It was," said Brundtland, "the perfect ending to a great Olym-

Smirnov started 59th in the 72man field and recorded the fastest split times at all but the first check point at 1.7 kilometers. He finished m 2:07:20.3, more than a minute better than Myllylac.

Along the way, Smirnov was cheered every bit as enthusiastically as Sivertsen, Ulvang or Dachlie. "Many people came up to me

They have been squarely behind him since last year's world champi-onships, when he lost a pursuit race to Daehlie in a photo finish after initially being declared the winner. Smirnov was mundated with letters from supportive Norwegians, some of which contained paper medals colored gold. Since then, he has begun pitching coffee on Norwegian television and continued his adventures with Ulvang, spending

Smirnov was born in Schuchinsk, a mountain town that according to Baglan Idrissov of the Kazakhstan Olympic Committee is "so small you could not find it on very many maps." His parents, both ethnic Russians, still live in Schuchinsk, but Smirnov, who is fluent in Russian, Swedish and German, is not fluent in the Ka-

zakhstan.

To Green and White Norway, With Thanks

By George Vecsey
New York Times Service

ILLEHAMMER—Put on my last Hawaiian floral shirt, my spifficst pair of chinos and loafers with no socks and sauntered over to the figure-skating arena. There was a sign on the door. All the Lovely European Female Skaters Have Gone Home. You Go Home. Too.

Actually, there was no sign like that, but I did get the feeling the 1994 Winter Games had taken on a new tone. They had gone outdoors on me. Well, it was never too

other side of the Win-Vantage ter Games. For 15 days, all of us on the Point Nancy-Tonya-Oksana-Katarina watch had seen only indoor ice. Now it was time to see ontdoor snow. I was going to sample one of Norway's greatest sporting passions, the 50-kilometer

Cross-country skiing.

Dug out the fur hat. Figured out how to see it. Dug out the thick mittens. Dug out the ski pants. Dug out the insulated inner socks. Dug out the chapstick. Dug out the silk longies. Took a bus up the mountain.

While the driver was down-shifting his way up the switchbacks, I reflected on these Games. I gave thanks to the gracious planning by the Norwegian organizers. I marvelled once again at the fluent way Norwegians speak English. I remembered the mix of common sense and competence that permeated every dealing; the police officers who allowed me into parking lots where I did not officially belong; the desk clerks who solved my every problem; the telephone expert who put a new code in my computer so I could dial from my room; the old fisherman in Hamar who wrote down "perch" and "trout" for all the foreigners who trekked out on the ice, the townspeople who put up with chattery Yanks clog-ging up the icy sidewalks. I haven't felt so clean in years.

As the bus climbed higher, I could see the frozen Lake Mjosa below me, the other mountains in the distance, the white birch trees and green pine trees and lush mounds of snow, still clean after two weeks of no fresh snow. The bus stopped on a plateau, and the stadium was packed with nearly 20,000 spectators, but there were trails leading further up, past tents that have been there for two weeks There were campfires smouldering, although officials were trying to put out the fires, to keep the smoke from

getting into the skiers' lungs.

I hiked a kilometer or two without seeing the course. possible to spend a July afternoon without ever seeing the lovely lais River. But there on a bluff I could see the

Maybe this was like the rowing races at Henley, where it is

incline. My hamstring muscles ached from watching them. There was an Estonian, a Spanlard, a Bulgarian, a Czech, a Latvian. Hey-hey-hey-hey, the fans chanted.

I spotted half a dozen insulated green mats, looking like the turf infields at hideous American domed stadiums. On the mats was a group from Oslo, looking like people spending a Sunday at Jones Beach. They had sunglasses on, a couple of layers of clothing, but they sunglasses on, a couple of layers of clotting, but usey looked warm and happy. They were grilling hot dogs, hot water in a kettle, and listening to the radio, where the local Phil Rzunto was probably sending out birthday greetings to little old ladies in Trondheim and Bergen.

"He is giving the times," said Terje Opsahl.
"He is saying who is skiing well," said Jou Ame

asmussen. "We came up yesterday," said Trono Samseth. "We ate in a restaurant last night," said Birger Ostby. I assumed they were all rooting for Bjorn Dahlie and Vegard Ulvang, the two main Norwegian hopes, but they said they were rooting for Vladimir Smirnov, who repre-sents Kazakhstan, and is a good pal of Ulvang. But why

would they root for a Russian-speaking skier? "We've got enough medals of our own," said Ole Christian Sorlie.

up her chance by landing on her face.

Thousands of happy Norwegians

on Tonya Harding's being allowed to akate

not one moose sighted. • The realization that there are 7,353 ways of preparing salmon - and that Norwegians know every one of them.

The human-humbling view of the ruggedly handsome Norwegian countryside.

"Smirnov tries very hard," said Lilly Krohn-Nydal. They seemed to epitomize the Norwegian sense of modesty and fair play I have been encountering for two weeks, the attitude that made them love Johann Olav Koss, the speedskater who gave his bonus money to Sarajevo, the attitude that made them shake their heads at our morbid preoccupation with Our Yank, Tonya Har-ding. They looked healthy and happy in the frigid air.

I hiked back toward the stadium, and soon the leaders began heading for the finish line. The fans cheered every skier. Their loudest cheers were for Smirnov winning the gold medal, but they stayed for the other skiers coming in As the bus inched its way down the mountain, I

realized I have never appreciated winter more. Back in New York, winter is the enemy, but here it is a trusted friend, a beautiful companion. Whenever I think of Winter Games, I will always close my eyes and picture the whites and greens of Norway. They could hold 'em here every four years, as far as I am concerned.

For all their skill at English, Norwegians did appreciate when we learned a few words of their language, I'm going to use my tiny bit of Norwegian one last time. Tusen takk. Thank you very much.

Moments to Remember

Los Angeles Times Service LILLEHAMMER -- Lasting memories of the 17th Winter Olympics, Lillehammer

Expanding the IOC Market Big Factor in Picking Sites

LILLEHAMMER — The cultivation of new markets has become a leading factor in the choice of Olympic host cities. Beijing was a prime contender for the 2000 Summer Games — before being passed over in favor of Sydney — because the IOCs president, Juan Antonio Samaranch, wanted to bring the Games to a fifth of humanity,

Similarly, the site of Nagano, Japan, was chosen for the 1998 Winter Olympics because many IOC members are eager to expand interest in the winter sports to Asia and the Third World. This year, a half-dozen Caribbean countries sent bobsled teams and Senegal was represented by the first black African skier in the Olympics. "Nearly all of the previous Winter Olympics have taken place in

"Nearly all of the previous winter Olympics have taken place in Europe or North America. Now there is a strong push to make these truly global games," said Harvey Schiller, executive director of the U.S. Olympic Committee.

By staggering the Olympics — with Winter and Summer Games held two years apart — the IOC hopes that the winter sports will

acquire a stronger identity and expand its domain beyond chie --- WILLIAM DROZDIAK

SPORTS WINTER OF

From Mountaintop to Valley, a Ringing Goodbye to Lillehammer

LILLEHAMMER - The last skiers came. through six of them, bobbing and driving like the pistons of a single engine. Their accompaniness into the stadium was a disco version of "Pomp and Circumstance," the song of graduations and goodbyes. It was thumping from the loudspeakers and a thou-sand Norwegian flags were whipping cracily

Then the skiers crossed the finish line, and Then the skiers crossed the finish line, and a change came over everybody. The skiers raised their sums and langed their coaches and langhed among each other. They became normal people again, while all around them the crowds on top of the mountain began to thaw. The crowds were dressed in blue and purple and predominantly red, and in the early afternoon Sunday those colors began to leave the 17th Winter Olympic Games and leave the 17th Winter Olympic Games and drain themselves down the mountain as sure-

ly as the snow will melt this spring.

They had been up here for most of the last 16 days to support and drive forward the cross country events at Lillehammer Olympic Park. At the end of each race they would vanish from the course, only to replenish themselves the next morning like something

fallen out of the sky. The cycle of replenishment ended Sunday. Just an hour after the men's 50-kilometer classical, the final race. only a few stubborn hundred remained in the stadium gathered around the giant TV SCIECUL

Their excuse was to see whether Alberto Tomba might win his gold medal in the slalom. They watched it turn from gold to aliver as Thomas Stangassinger of Austria beat Tomba. Then they gave one last big cheer to Vladimir Smirnov of Kazakhstan, the 50-km gold medalist whose victory they supported with flags and bells as if he was Norwegian. The sincerity of Norwegian sportsmanship has been beyond question, which implies a sentimentality for the Otympics and what they stand for. Clearly this was not an exercise in nationalism for them, as the last floe of them moved toward the hill leading down the mountain.

Outside the stadium was the kind of goodbye that Disney gives — a band and two choirs to screnade them toward the food and souvenirs, because this is their last chance to buy. The second choir stood upon a snowbank singing something about the "spring-time that makes the lonery winter seem long." The crowd moved beneath the singing in a

mumble and the clanking of a single cowbell, and the path curied them around so that they could not avoid passing one last time the bare

skeleton of their empty stadium. From around a corner of trees came the warm smell of a campfire, People who had

of the way down the mountain, and there were no guns that could be seen. There were no guns as more than 100,000 people with money in their pockets were swaying and bumping shoulders along paths locked clean

Then they gave one last big cheer to Vladimir Smirnov of Kazakhstan. The sincerity of Norwegian sportsmanship has been beyond question, which implies a sentimentality for the Olympics and what they stand for. Clearly this was not an exercise in nationalism for them, as the last floe of people moved down the mountain.

walked a little but now weren't ready to say goodbye had torn fir branches from the trees and were sitting on them like cushions upon the snow. They looked up absently at the majority filing past. Most of the moving crowd were fitted with backpacks. A single by the people who had gone down before them.

After five years of planning and deepseated fears, the Olympics had blurred past in 16 days like the skiers of the morning. The people shout their goodbyes to the skiers, but who says farewell to the people? For the 550 employees and 11,000 volunteers who niganized the stadiums and the places to stand. the Lillehammer Olympic Organizing Committee has offered the services of psychiatrists and semioars to belo them deal with a mission that builds like a glacier and vanishes like ice into the sea. For the 21,000 people who live in Lillehammer, it is a relief to know that the paths and the streets are yours again. but accompanying that must be a sense of melancholy to realize that you are, in a sense, walking down the mountain for the last time.

Up high on the mountain, where everynne feels looesome, you could see them taking in the view as if they would oever see it again. They were saving goodbye with steadfast eyes. At the bottom of a hill with the first view of Lake Mjosa sat more than 100 people, most of them drinking coffee, the steam es-caping them like chimney smoke. They shared the hill with six sheep, which stood inside a small wood barn and blinked out the open door at the flow of people down the hill.

A mug of warm rum was being passed among 2 group of young theo. They offered some to a stranger, they laughed at the sheep and then they led the way down the mountain. Suddenly it was steep. They were slipping and tripping over trees and sliding down their backs, laughing, and their noise seemed to echo around them until everyone was laughing. It was a thick forest, and everywhere you looked were the patient trees and the people giggling like children

عكذا من الأحل

The woods fed into a road and the people funneled out happily, dusted in snow. The road fed them a view of the Olympic flame. with only a few hours of life remaining here. They could see the city now, and some workers behind a wire fence inflating balloons shaped like doves for the closing ceremony

From higher up they had been able in see a few thin rivers of people working across a snowy clearing. Now they themselves were the last legs of that river. It spilled onto a road and zigragged down toto town, which is a series of funnels all leading down to the train station. There must have been thousands of people boarding the trains to leave a place so beautiful and clean that even the most power-ful global influences cannot ruin it.

On their way down they sought to fix everything to memory, which made the last day of the Olympics the quietest day, trying in remember it as it was before it was washed

Games Ever

LILLEHAMMER - The town bade a proud farewell to the "best Olympic Winter Games ever on Sunday with a sparkling closing creamony ringed by sadness for the shattered Olympic city of Sarajevo.

A crowd of 40,000, and an estimated 2 failion television viewes:

worldwide, watched as the Norwe-gians handed on the Olympic baton to the Japanese city of Nagano, which will stage the 1998 Games. Winners and losers from 16 days of competition; carrying the flags of 67 commiss, streamed into the ski jump arena for the final show. But before the fireworks and a

long night of celebration, Olympic leaders recalled the shattered 1984 host city - and claimed some credit for the current truce in Bosnia.

"Dear Sarajevo, we do not forget you," said the International Olym-pic Committee president, Juan An-tonio Samaranch, as he formally closed the Games. "We will continne to support you."

"After many horrors, the situation now seems to be improving."
he added. "Let us hope that this truce - to which, in our own yery limited way, we may have contributed - let us hope that this truce will turn into lasting peace."

The 80-minute show was less foricily haunting display that opened the Games on Feb. 12

Although Norway's rich folk cul-ture and its oternal battle with the forces of nature were again, at the fore, the closing ceremony showed the human touch that had made the coldest-ever Winter Games so spe-

cial for fans.

Among the flag-bearers who led the crowd of other athletes were some of the Games' great names. The United States chose Dan Jansen, the speed skater who broke his Olympic jinx in the last race of his fourth Games.

Norway also chose a speed skater: Johann Olav Koss, who wonthree golds in three world-record-breaking outings on the ice.

Mongolia chose a speed skater as well: The short-track skater Batchuluun Bat-Orgil, who missed the opening ceremony because he did not know he had qualified, was his country's sole competitor at the

Games. Lillchammer's green-white message was not forgotten. The mayor, Audum Tron, sent off a six-member team of dog sledders on a 18-month journey across Siberia to deliver an environmental message to the Na-Sano Organizers. After Samaranch's formal clos-

ing declaration came the main ar tistic part of the show. Giant trolls and evil Nordic sprites stalked the stage and the arena was bathed in a forest of light.

And 40,000 flashlights, each of

them inscribed "Remember Sarajevo" were pointed to the sky to remind the world of the horrors of the Bosman war.

mai but no less spectacular than the . Alberto Tomba of Italy celebrating with Norwegian fans after his second-place finish in the slalom. In the first run, he had come in 12th.

But the evening described as "the real Germany-2's crew celebrating a golden victory over Switzerland-1.

Germany's Czudaj Wins in 4-Man Sled

Germany-1, driven by Wolfgang

Hoppe, won the bronze.
Czudaj, who entered the day with a slim lead of 12-hundredths of a second over the Swiss star, lost in the two-man for the first time part of it un the first tun. Weder. who had the fastest time of the day on each run, closed to within .09 second of the lead, racing down the 16-turn Hunderfossen track io ter 10 years is the greatest achievement since we have been working But Weder, master of the come-

back, was foiled this time and had to settle for silver after winning the gold last week in the two-man. Al-though Weder posted the fastest time again on the final run, 52.13 seconds, Czodaj inllowed in 52.16 for a final time of 3 minutes, 27.78 seconds - six-hundredths better than Weder.

"It's wild, I didn't believe we could do it," Czudaj said, "I want to thank all the people who stood by me during the hard times." Czudaj was referring to the dis-closure that he had reported on teammates to the Stasi, the former East Germany's secret police, when

he competed for that country. He

was kept on the German team at the 1992 Albertville Games after

officials determined that his conduct had not harmed anyone. But he finish sixth.

Hoppe ended third for his record

28th medal in international competition and 12th in the Olympics. A double gold medalist 10 years ago at Sarajevo, Hoppe had identical runs Sunday of 52.14 seconds and was .23 seconds off the lead.

since 1964, the performances by Czudaj and Hoppe came as a major relief to the German camp. "Winning the four-man event af-

ment since we have been working together," said the team's head coach, Raimund Bethge.
Brian Shimer, pilot of USA-2, was disqualified before the heats began because his runners were too

Dudley Stokes, pilot of Jamaica-1, made his third run in 52.39 seconds, 10th fastest and 38-hundredths of a second better than

Stokes, 18th the first day, moved up to 14th and beat Will by onehundredth of a second - a huge accomplishment. It was Jamaica's best Olympic showing. The Jamaicans were the butt of

jokes when they crashed in their their third run in 1988.

Tomba Steals Thunder, Stangassinger Gets Gold

By Harvey Araton New York Times Service

OYER - Tomba being carried on the shoulders of local women in gargeous Norwegian sweaters. Tomba being pulled in a sted, like the monarch of the mountain, Tomba grabbing an Italian flag from his fans and running wild in the snow. Tomba doing a front

body flip, landing firm on his feet. What better, more appropriate way could there be for a stunning alpine program, and Alberto Tomba's record-setting Olympic career, to reach a dramatic end?

Tomba did not win the gold medal Sunday in the men's slalom, but he did steal the last Olympie show. Just when it looked like he had failed to become the first alpine racer to win medals in three Olympics, the legend of La Bomba roared to life, and down the Hafjell course. The man with the permanent five o'clock shadow came through with a burst of one o'clock

From 12th place after the morning run. from a healthy 1.84 secnods behind. Tamba somehow overtook everyone but the leader. Thomas Stangassinger of Austria. who won the gold over Tomba hy

15-bundredths of a second. his Olympic career, a six-year run dredths short of Tomba, and that, through Calgary, Albertville and ultimately, would be good enough Lillehammer concluding with three golds and twn silvers. He goes

home Mnoday a happy man.
"Fantastic," he said. "It seems to be some kind of record, to go from 12th to second. I'm really proud of myself."

Sunday's tale of Tomba was reminiscent of the sialom two years ago at Albertville, when he made up 1:58 in the afternoon run to finish second behind Firm Christian Jagge of Norway. He detected a pattern of wooful morning runs, directly related to his customary lack of sleep, for one reason or another.

This time, he said it was not because he was out partying with four women until 2 A.M., or was that two women until 4 A.M.? He After the failure to get any medal desperately wanted to go out in style, not as he did in giant slalom Thursday, when he ran 13th in the first run and failed to finish the

second. He just could not sleep.
"Nine-thirty, this is really early
in the morning," be said. "It is very
difficult for me." He was first down the hill in the morning run, in 1:02.84, and soon he would be discounted as a medal

candidate, as racers passed him by in a blur. Stangassinger, a 28-year-old veteran from outside Salzburg, was almost a full second ahead of Kjetil

Andre Aamodt of Norway. Jagge was fifth, 1.16 behind. As for for threat of a Tomba rally, Stangassinger, with all due respect, would not have bet his life on it. "He was two seconds be-

take one second not more that Between runs. Tomba decided to Winter Games debut at Calgary on go for broke. The day was frigid and the top of the course, through

ful sheet of ice. The bottom was Patrick Staub of Switzerland was heavier soow, which required more than two seconds late and sharp-edged skis to cut a line and make up time.

"I had nn eboice," Tomba said, "I was really going for it."
He chose a different set of skis, with sharper edges that would create a greater risk of slipping turning through the gates at the top.

Sure enough, Tomba oearly went down around the second pate. stunting his advancement momentarily. But once steadied, he began to generate momentum and speed. By the middle of his run, his risk began to pay off. He blasted through the bottom of the course and to the finish line in 59.33, for a two-run time of 2:02.17.

He was only 80-hundredths of a second in the lead, with 11 racers still to come.

Tomba ripped off his goggles and looked back at his time on the scoreboard. Then he waved both hands in disgust, "I was ont very pleased," he said. "I didn't believe I could get a medal."

None of the next three skiers came close to Tomba, as it became apparent that be had set a blister-ing pace from the middle of the bundredths of a second. course down. A tough Slovenian, Tomba's model was the fifth of Jure Kosir, pulled up 36-hun-

Jagge 1.02 too slow, Thomas Sykora of Austria was a victim of the ice, missing the fourth gate.

There were three skiers left, starting with Peter Roth of Germany. Tomba was suddenly one slip or lesser time away from a medal.

Roth's dream died between the second and third gates, when he went down. The giant video screen flashed Tomba, dazed, delirious. His fan club with their banners spaced through the largely Norwegian crowd was wild. Their man could do oo worse than third.

Aamodt, going for his fourth medal of his home country Olympics hut still without a gold, was up. The Norwegian fans roared, but not for long. Aamodt went down and out less than 15 seconds into his run. Stangassinger was all that stood

between Tomba and gold. "I didn't know Alberto's time," Stangassinger said. All he could think of was getting through the ice. He, too, stumbled around the second gate. But once back oo now, he felt confident that he had enough space between himself and Tomha, which he did, harely.

Stangassinger and Kosir were also carried off the pedestals by the local fulk, but most eyes were fixed on Tomba, wanting one final look.

After winning the bronze in the slalom, Katja Koren had a victory (AP, Reuters) the first group of gates, was a fret-roll in the snow with her Slovenian teammate, Alenka Dovzan.

6 Cubans: Low-Overhead Salsa a Cappella

onal Herald Tribuse

PARIS — Making music in a place and under conditions where it cannot earn great material wealth or widespread fame is a generalized version of a blind person playing the piano. The principal reward is the doing of it.

Twenty-three-year-old Rene Banos of Grupo Sampling says that a lot of Cuban musicians of his generation look at it this way. The musicians who wanted to make money defected to North America. Those who wanted to make music stayed in Cuba. They have had no commercial pressure to speak of for generations. You are not tempted to sell out where there is no currency to earn, nothing to buy anyway and just about nothing else to do.

Sooner or later the new Cuban music is bound to explode. Too many young "legends" are mentioned, more every year. Even Irakere and Los Van Van have been renewed with young personnel. Gonzalo Rubalcaba became a global star despite the blockade. So much energy is being invested in the making of good music in a country with a bountiful tradition. It's just a matter of time. Grupo Sampling is the most recent example. Baños says: "Cuban music is invading the world. We travel a lot,

we can feel people responding to it. I'm talking about

music made in Cuba, where the environment is rich." The adjective "rich" to describe Cuba may seem inappropriate. But listening to Grupo Sampling, you hear an overpowering lush and vivid spirit, far from the otherwise drab and even hopeless image the country in general currently evokes. "Sampling" is an English word meaning the electronic synthesizing of sounds. Sampling is to music what sound bites are to language. Oversimplified construction. There is a touch of irony to the name Grupo Sampling.

however, and they construct an entire vocabulary.

The six members met when they were all in the Institute Superior de Arte, the Havana National Institute of Music, studying orchestral instruments. They sang in the school's chorale for vocal training. They began to imitate salsa bands at parties, the six of them singing a cappella for the fun of it,

The word salsa has come to have a pejorative thrust. Cuban musicians who have not defected tend to consider salsa an oversimplified version of their music produced in Miami and New York for money. (This might in part be interpreted as sour grapes, but the music coming out of Havana today is anything but sour.] Anyway, Grupo Sam-pling's publicity claims that they "imitate the instruments of

salsa bands," so let's consider "salsa" convenient shorthand. Like six Cuban Bobby McFerrins (they have opened for him), they use the human voice to "sample" the sounds of trombunes, saxophones and trumpets and most of all Latin polyrhythmic complexity. Imagine six swinging young men popping, clicking, shouting, whooshing and kablooming vocal claves, bongos, congas and horn parts. The arrangements are elaborate, their execution precise. The Grupo sings South African, Brazilian and merengue tunes also. Their version of Lennon and McCartney's

"Drive My Car" may make you miss your exit ramp. Baños, who is the arranger and composer, sings bass, baritone and lead parts. The only one who speaks English, he was thus also the spokesman for this interview. We are in the lobby of a seriously modest hotel in the fearlessly anonymous Parisian suburb of Fontenay-sous-Bois, Variations on this sort of two-star minor-league sterility will be their home on the road through April.

One week earlier, a big-time big-business music power broker had literally begged me to accompany him to the suburb of Bobigny (Grupo Sampling is, you might say,

"Cuban music is invading the world," says René Baños (third from left) of Grupo Sampling.

stalking the outskirts). We had not met, and he took some group to a recording on the was thinking of signing the group to a recording contract but was astonished that he considered music this good commercial. He could not believe his ears. Some colleagues were kidding him about it. He wanted all the confirmation he could get I usually refuse invitations to hear arouns The never heard of form people! invitations to hear groups I've never heard of from people !

don't know but something told me this was different. It turned out to be not only one group but a country.

In Bobigny, the gig was as local as you can get, kids running around chasing balloons in the town hall ball-room. The locals, who knew nothing about montanes or six-part harmony, adored whatever it was these bright and attractive young men were singing, and it was clear that Grupo Sampling will soon be playing major venues for more diverse and sophisticated audiences. A matter of

Percussionist Poney Gross, who runs the Belgian production company Zig Zag, "discovered" the group when be was in Havana conducting his yearly workshop for European musicians and dancers in the summer of 1990. (There will be no workshop this year, the situation in Cuba has become "too difficult.") They were very young just looling around, not taking singing seriously yet. Gross could not believe his ears either. He soon had them on the road. They are currently on their third European tour. Peter Gabriel recorded three tracks that were released on David Byrne's compilation "Diablo al Inferno," and they have recorded an album for a German producer who is negotiating selling the tape to the abovementioned power broker for summer release. Meanwhile, Grupo Sampling stalks the local end of the market.

Traveling eight in a van, including a management and

production team of two, makes a crowded van. It brings to mind two practical advantages of a cappella vocal groups from underdeveloped countries. One: No instruments require less horsepower. Two: With no instruments you don't have to buy any hardware. Setting up costs cannot get much cheaper.

Baños was anxious to talk about the musical scene in Cuba. He called it "boiling." There is no commercial distinction between folk and pop music. It is all just music. and all good music is popular: "In Europe and America, the word 'folk' means something in the past, Something just about dead. In Cuba it is not unusual to find musicians who play both folk and jazz professionally. All music is mixed in the same bowl.

The Spanish did not forbid their slaves to play musical instruments like the English in North America, so we have many good instrumentalists. Descending from a mixture of African griots and Spanish and French troubedours. virtuoso guitar-playing singer/songwriters dot the countryside. Son' music, the mixture of African, Caribbean and American elements on which all Cuban music is more

or less based, is still developing. It is not a museum piece.

"The violin came from France by way of Haiti. Machito
and Dizzy Gillespie put jazz and Cuban music together," Baños said, "A calypso influence came up from Trinidad, reggae from Jamaica. We are centrally located, and our tradition is musually diversified. So you have rumba, salsa, mambo, jazz — even cha-cha. The country is bursting with music."

Next stop, Namur, Belgium. Cha-cha

Grupo Sampling will be performing in Belgium, France, Spain and Switzerland through April 30.

Duck! Here Come Fused Participles

By William Safire

WASHINGTON — Last month, when a former naval person chose to credit the news media, and especially me, with his withdrawal from the public arena, I discovered what it was like to be staked out, besieged and otherwise intruded upon by the pushy,

pesky Nosy Parkers of the press.

How to put them off? What message could I leave on my answering machine that would make my privacy impenetrable and yet not offend my hard-working colleagues? The solution: "Sorry I can't take your call, or be on your show or whatever, because I have a language-column deadline on the subject of fused

Fused participles stopped 'em all cold. Every interviewer, booker and volunteer confessor accepted that as irrefutable evidence that I could not be disturbed and must not be faulted for going into deep isolation. Participle fusion, much like thermonuclear fusion, is a

subject too widely dreaded to be approached lightly.
One radio reporter responded: "Tell Safire I can
understand him ducking." In that sentence, him ducking is what the usagist H. W. Fowler named a "fused participle" and what others call a "false participle." Grammar-destroying participle fusion takes place when a noun or pronoun is not made possessive before

when a norm or pronoun is not made possessive before a gerund. When you treat a gerund as if it were a participle, argued Fowler, the author of "Modern English Usage." you defy grammalical analysis and make a mess of the language.

As an activity, ducking is a gerund (from the Latin gerere, "to carry out"), which is a noun formed from a verb. Another example: in "Withdrawing can be newspectful", the relief withdrawing is a norm formed.

worthy," the subject, withdrawing, is a noun formed from the verb to withdraw. Now you want to know what a participle is: it's often an adjective that grows out of a verb, like a ducking columnist.

Here comes the part that traps the unwary. In these examples, you will note that the same word - ducking coming from the informal verb "to duck" - can be used as a noun-like gerund ("can understand check-ing") and also take the form of an adjective-like participle ("a ducking columnist"). Just because the word is the same, that doesn't mean its function is the same. Ducking the gerund acts like a noun, while ducking the participle acts like an adjective. When you mix them up, you confuse everybody.

Thus, the correct message would be "I can under-stand his ducking." The ironic broadcaster knew that him ducking failed to put the possessive pronoun before the gerund ducking and incorrectly turns it into a participle. Other examples abound: On the TV show "Roseanne," daughter Becky says

about sexism, "It's a matter of women being exploited by men for centuries." No, it's not "a matter of women"; it's "a matter of women's being exploited." The pseudonymous Walter Scott writes in Parade magazine of "the cliche about love being hlind," which

should be "love's being blind,"
Writing about "Jurassic Park" in Variety, Don
Groves noted, "Nobody foresaw the dinosaur movie ringing up monster receipts overseas." But it was the foreign business, not the movie, that was not foreseen; that should have been "the dinosaur movie's ringing

In a piece about Dan Quayle in TV Guide, Harry

Stein wrote about a "report on comics having a field day." The report was not on "comics"; it was on "comics" having a field day," with the apostrophe placed after the plural "comics" to have it take possession of the gerund having.

Waxing philosophical about this, Fowler wrote: "It is perhaps beyond hope for a generation that regards upon you giving as normal English to recover its hold upon the truth that grammar matters. Yet every just man who will about in from the fused participle. man who will abstain from the fused participle

Stein wrote about a "report on comics having a field

retards the progress of corruption."

The reader is entitled to know that the great Danish The reader is entitled to know that the great Danish grammarian Otto Jespersen thought this was all a lot of hooey. He issued a tract arguing that what Fowler considered gerund-abuse was a useful means "to provide the English language with a means of subordinating ideas which is often convenient and supple where clauses would be unidiomatic or negligible." Fowler snapped back with "I confess to attaching more importance to my instinctive repugnance for without you being than to Professor Jespersen's demonstration that it has been said by more respectable authors than I had supposed."

When the giants of linguistics clash, who decides what is correct? We turn to our inner ear. In written prose at least, Fowler's sense of order makes sense, and sharpens our writing; however, Fowler's hooting at those who fuse their participles in speech would be out of place, because the tongue can be more loosey-goosey. Jespersen would not be so strict about using the possessive before the gerunds writing and hooting. (Note me ducking, as Jespersen would permit, or my ducking, as Fowler would say.)

Limited air strikes around Sarajevo and other be-sieged cities in Bosnia, opined Representative Lee Hamilton of Indiana, "would mark an end to the endless diddle-daddle."

This is not a new formulation combining fiddle-addle and diddly squat. On the contrary, the Dictionary of American Regional English traces diddle-daddle, a third-order reduplication, to an 1899 citation: "You go

diddle-daddling about all day and do nothing."

Diddle as a verb has been in use since the early 17th century meaning "to walk unsteadily." Other senses include "to copulate, to engage in amorous genital play," as well as the similar-sounding "to dawdle."

Diddly squat, used with great force by Justice Thurgood Marshail at the time of his retirement, means "very little" or "hardly anything worth noticing." Its

good Marshall at the time of his retirement, means "very little" or "hardly anything worth noticing." Its origin is in baby talk: "It is euphemistically but correctly defined." Fred Cassidy of DARE reports, "as "the product of a child who squats to do his duty." Though diddly squat should be used sparingly in light of its origin, and to diddle used cautiously because of its sexual undertone, diddle-daddle is acceptable in any dithering circuttor.

any dithering situation.
